## Independent auditor's report

To the Shareholders, Board of Directors and Management of Joint Stock Company "National Company "KazMunayGas"

### **Opinion**

We have audited the consolidated financial statements of Joint Stock Company "National Company "KazMunayGas" and its subsidiaries (the Group), which comprise the consolidated statement of financial position as at 31 December 2022, the consolidated statement of comprehensive income, consolidated statement of changes in equity and consolidated statement of cash flows for the year then ended, and notes to the consolidated financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying consolidated financial statements present fairly, in all material respects, the consolidated financial position of the Group as at 31 December 2022 and its consolidated financial performance and its consolidated cash flows for the year then ended in accordance with International Financial Reporting Standards (IFRSs).

### **Basis for opinion**

We conducted our audit in accordance with International Standards on Auditing (ISAs). Our responsibilities under those standards are further described in the Auditor's responsibilities for the audit of the consolidated financial statements section of our report. We are independent of the Group in accordance with the International Ethics Standards Board for Accountants' Code of Ethics for Professional Accountants (including International Independence Standards) (IESBA Code) together with the ethical requirements that are relevant to our audit of the consolidated financial statements in the Republic of Kazakhstan, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the IESBA Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

### **Key audit matters**

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. For each matter below, our description of how our audit addressed the matter is provided in that context.

We have fulfilled the responsibilities described in the *Auditor's responsibilities for the audit of the consolidated financial statements* section of our report, including in relation to these matters. Accordingly, our audit included the performance of procedures designed to respond to our assessment of the risks of material misstatement of the consolidated financial statements. The results of our audit procedures, including the procedures performed to address the matters below, provide the basis for our audit opinion on the accompanying consolidated financial statements.

**Key audit matter**

**How our audit addressed the key audit matter**

***Impairment of non-current assets***

We consider this matter to be one of the matters of most significance in our audit due to materiality of the balances of non-current assets, including upstream, downstream and midstream assets, to the consolidated financial statements, the high level of subjectivity in respect of assumptions underlying impairment analysis and significant judgements and estimates made by management.

Assumptions included discount rates, oil and petroleum products prices forecasts and inflation and exchange rate forecasts. Significant estimates included production forecast, future capital expenditure and oil and gas reserves available for development and production.

Information on non-current assets and the impairment tests performed is disclosed in notes 4 and 15 to the consolidated financial statements.

We considered management's assessment of the existence of impairment indicators and where impairment indicators were identified, we involved our business valuation specialists in the testing of management's impairment analysis and calculation of recoverable amounts.

We analyzed the assumptions underlying management forecasts. We compared oil and petroleum products prices used in the calculation of recoverable amount to available market forecasts.

We compared the discount rates and long-term growth rates to general market indicators and other available evidence and checked the adjustments made by management when calculating the applicable discount rate.

We tested the mathematical integrity of the impairment models and assessed the analysis of the sensitivity of the results of impairment tests to changes in assumptions.

We performed procedures to assess competence, capabilities and objectivity of the external experts engaged by the Group to estimate the volumes of oil and gas reserves and prepare impairment models, where applicable.

We analysed disclosures on impairment test in the consolidated financial statements.

### ***Accounting for business combinations and acquisitions of joint ventures***

In 2022 the Group obtained control and joint control over certain entities.

We consider this matter to be one of the matters of most significance in our audit due to the significance of businesses and investments acquired to the consolidated financial statements, and the complexity of these transactions. In addition, management's judgement was applied when determining the accounting policy to be used in respect of these acquisitions.

Information about business combinations and acquisitions is included in notes 6 and 7 to the consolidated financial statements.

We examined the sale and purchase agreements and other documents related to these transactions and gained an understanding of the main terms, nature and structure of the transactions.

We inspected corporate approvals, corporate and shareholders agreements and other legal documents in order to understand the nature of the transactions and assess management's judgement in respect of the application of the common control exemption from IFRS 3 "Business combinations".

We evaluated the accounting policy applied by the Group to the acquisition of investments in joint ventures.

For the acquisitions under common control, where financial information from the predecessor's financial statements was used, we compared the information included in the consolidated financial statements, including the restatement of comparative information, where applicable, with the available financial information included in the financial statements of previous owners.

We compared the amounts of consideration paid by the Group to the related payment supporting documents and contractual commitments.

For acquisition of joint venture not under common control, we assessed the management's estimates in respect of the fair values of share in assets and liabilities acquired.

We analyzed the related disclosure in the consolidated financial statements.

### ***Provisions and contingent liabilities***

Provisions are recognized and contingent liabilities are disclosed by the Group in respect of government inspections, provisions for asset retirement obligations (ARO) and general legal proceedings, as well as other matters.

In 2022 the Agency for protection and development of the competition of the Republic of Kazakhstan conducted an inspection of certain entities within the Group. In addition, the Group recorded changes in certain estimates related to ARO.

The assessment as to whether, or not, a liability should be recognized and whether amounts can be reliably estimated involves estimation and judgement. Predicting the outcome of the matter and estimating the potential impact if the outcome is unfavorable represents a complex process and the potential exposure on the consolidated financial statements may be significant.

Calculation of ARO requires significant judgment due to the inherent complexity in estimating future costs and due to significance of this liability. Most of these obligations are expected to be settled in a long-term perspective. The Group involved specialists to assess the ARO. Management's assumptions used in the calculation include expected approach to decommissioning and discount rates, along with the effects of changes in inflation rates.

Assessment of legal and constructive obligations of the Group related to the liquidation of each asset according to the contractual agreements and relevant local legislation requires management's judgement and evaluation and implies variability.

We considered provisions and contingent liabilities to be one of the matters of most significance in our audit because of their potential significance to the consolidated

We inquired the Group's management and legal department for instances of non-compliance with laws and regulations and the status of any pending and ongoing litigations, claims and proceedings. We obtained legal letters from internal legal advisers.

We inspected relevant correspondence, the minutes of the meetings of the Group's management and Board of Directors.

We have analysed the results of government inspections, disclosed in Note 35 to the consolidated financial statements and discussed them with the Group's legal department.

Our procedures in respect of ARO included assessment of legal and constructive obligations related to the liquidation of each asset on the basis of contractual agreements and relevant local legislation.

We considered the competence and objectivity of the specialists involved by the Group, who produced the cost estimates as a basis for ARO. We compared the discount and inflation rates used to available external data. We checked mathematical accuracy of the calculations.

We have also assessed changes in estimated future costs related to ARO and assessed how the Group took into consideration the recent changes in the related legislation.

We analysed the Group's management's estimates underlying the amounts recognized as provisions in the consolidated financial statements and assessed judgements in respect of the probability of potential outcomes of contingent liabilities in the consolidated financial statements.

We analysed the related disclosures in the consolidated financial statements.

financial statements, the level of judgment required and the 2022 events describe above.

Information on provisions, contingent liabilities and commitments is disclosed in notes 29 and 35 to the consolidated financial statements.

### ***Other information included in the Group's 2022 annual report***

Other information consists of the information included in the Group's 2022 Annual Report, other than the consolidated financial statements and our auditor's report thereon. Management is responsible for the other information. The Group's 2022 Annual Report is expected to be made available to us after the date of this auditor's report.

Our opinion on the consolidated financial statements does not cover the other information and we will not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information, when it becomes available, and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

### ***Responsibilities of management and the Audit Committee for the consolidated financial statements***

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with IFRSs, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

The Audit Committee is responsible for overseeing the Group's financial reporting process.

### ***Auditor's responsibilities for the audit of the consolidated financial statements***

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with ISAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- ▶ Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- ▶ Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- ▶ Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- ▶ Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- ▶ Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- ▶ Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with the Audit Committee regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the Audit Committee with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, actions taken to eliminate threats or safeguards applied.

From the matters communicated with the Audit Committee, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

The partner in charge of the audit resulting in this independent auditor's report is Kairat Medetbayev.

## NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

---

### 1. GENERAL

Joint stock company “National Company “KazMunayGas” (further the Company, JSC NC “KazMunayGas” or Parent Company) is oil and gas enterprise of the Republic of Kazakhstan (further RK), which was established on February 27, 2002 as a closed joint stock company pursuant to the Decree No. 811 of the President of the RK dated February 20, 2002 and the resolution of the Government of the RK (further the Government) No. 248 dated February 25, 2002. The Company was formed as a result of the merger of closed joint stock companies “National Oil and Gas Company Kazakhoil” and “National Company Transport Nefti i Gaza”. As the result of the merger, all assets and liabilities, including ownership interest in all entities owned by these companies, have been transferred to the Company. The Company was reregistered as a joint stock company in accordance with the legislation of the RK in March 2004.

Starting from June 8, 2006, the sole shareholder of the Company was joint stock company “Kazakhstan Holding Company for State Assets Management “Samruk”, which in October 2008 was merged with the state owned Sustainable Development Fund “Kazyna” and formed joint stock company “National Welfare Fund Samruk-Kazyna”, now renamed to joint stock company “Sovereign Wealth Fund Samruk-Kazyna” (further Samruk-Kazyna). The Government is the sole shareholder of Samruk-Kazyna. On August 7, 2015, the National Bank of RK (further NB RK) purchased 9.58% plus one share of the Company from Samruk-Kazyna. From December 8, 2022, 3.00% of shares of the Company are freely available on the Astana International Exchange (further AIX) and the Kazakhstan Stock Exchange (further KASE) stock exchanges.

As at December 31, 2022, the Company has interest in 59 operating companies (as of December 31, 2021: 60) (jointly “the Group”).

The Company has its registered office in the RK, Astana, Dinmukhamed Kunayev, 8.

The principal activity of the Group includes, but is not limited, to the following:

- Participation in the development and implementation of the uniform public policy in the oil and gas sector;
- Representation of the state interests in subsoil use contracts through interest participation in those contracts; and
- Corporate governance and monitoring of exploration, development, production, oil servicing, processing, petrochemistry, transportation and sale of hydrocarbons and the designing, construction and maintenance of oil-and-gas pipeline and field infrastructure.

The consolidated financial statements comprise the financial statements of the Company and its controlled subsidiaries (*Note 3*).

These consolidated financial statements of the Group were approved for issue by the Deputy Chairman of the Management Board and the Chief accountant on March 6, 2023.

### 2. BASIS OF PREPARATION

These consolidated financial statements have been prepared on a historical cost basis, except as described in the accounting policies and the notes to these consolidated financial statements. All values in these consolidated financial statements are rounded to the nearest millions, except when otherwise indicated.

#### Statement of compliance

These consolidated financial statements of the Group have been prepared in accordance with International Financial Reporting Standards (IFRS) as issued by International Accounting Standards Board (IASB).

The preparation of the consolidated financial statements in conformity with IFRS requires the use of certain critical accounting estimates. It also requires management to exercise its judgment in the process of applying the Group’s accounting policies. The areas involving a higher degree of judgment or complexity, or areas where assumptions and estimates are significant to the Group consolidated financial statements are disclosed in *Note 4*.

In course of preparation of these consolidated financial statements the Group management considered the current international economic and geopolitical environment including the war in Ukraine (*Note 37*). The consolidated financial statements were prepared on a going concern basis.

**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (continued)**

---

**2. BASIS OF PREPARATION (continued)****Foreign currency translation***Functional and presentation currency*

Items included in the financial statements of each of the Group’s entities included in these consolidated financial statements are measured using the currency of the primary economic environment in which the entities operate (the functional currency). The consolidated financial statements are presented in Kazakhstan tenge (tenge or KZT), which is the Company’s functional and presentation currency.

*Transactions and balances*

Foreign currency transactions are translated into the functional currency using the exchange rates at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation at year-end exchange rates of monetary assets and liabilities denominated in foreign currencies are recognized in the consolidated statement of comprehensive income.

Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates as at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value is determined.

Differences arising on settlement or translation of monetary items are recognized in profit or loss with the exception of monetary items that are designated as part of the hedge of the Group’s net investment in foreign operation. These are recognized in other comprehensive income until the net investment is disposed of, at which time, the cumulative amount is reclassified to profit or loss. Tax charges and credits attributable to exchange differences on those monetary items are also recorded in other comprehensive income.

*Group Companies*

The results and financial position of all of the Group’s subsidiaries, joint ventures and associates (none of which has the currency of a hyperinflationary economy) that have a functional currency different from the presentation currency are translated into the presentation currency as follows:

- Assets and liabilities for each statement of financial position presented are translated at the closing rate at that reporting date;
- Income and expenses for each statement of comprehensive income presented are translated at average exchange rates (unless this average is not a reasonable approximation of the cumulative effect of the rates prevailing on the transaction dates, in which case income and expenses are translated at the rate on the date of the transaction); and
- All resulting exchange differences are recognized as a separate component of other comprehensive income.

*Exchange rates*

Weighted average currency exchange rates established by KASE are used as official currency exchange rates in the Republic of Kazakhstan. The currency exchange rate of KASE as at December 31, 2022 was 462.65 tenge to 1 United States dollar (US dollar). This rate was used to translate monetary assets and liabilities denominated in US dollar as at December 31, 2022 (2021: 431.80 tenge to 1 US dollar). The currency exchange rate of KASE as at March 6, 2023 was 432.83 tenge to 1 US dollar. For the year ended December 31, 2022, the Group had net foreign exchange gain of KZT 40,925 million due to fluctuations in foreign exchange rates to tenge.

**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (continued)**

---

**2. BASIS OF PREPARATION (continued)****Renegotiation of loans in the context of IBOR reform**

In the context of IBOR reform, some financial instruments have already been amended or will be amended as they transition from IBORs to risk free rates (further RFR). In addition to the interest rate of a financial instrument changing, there may be other changes made to the terms of the financial instrument at the time of transition. For financial instruments measured at amortised cost, the Group first applies the following practical expedients:

- A practical expedient to require contractual changes, or changes to cash flows that are directly required by the reform, to be treated as changes to a floating interest rate, equivalent to a movement in a market rate of interest;
- Permit changes required by IBOR reform to be made to hedge designations and hedge documentation without the hedging relationship being discontinued;
- Provide temporary relief to entities from having to meet the separately identifiable requirement when an RFR instrument is designated as a hedge of a risk component.

Second, for any changes not covered by the practical expedient, the Group applies judgement to assess whether the changes are substantial and if they are, the financial instrument is derecognized and a new financial instrument is recognized. If the changes are not substantial, the Group adjusts the gross carrying amount of the financial instrument by the present value of the changes not covered by the practical expedient, discounted using the revised effective interest rate.

**3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES****Changes in accounting policies and disclosures***New and amended standards and interpretations*

The accounting policies adopted in the preparation of the consolidated financial statements are consistent with those followed in the preparation of the Group’s annual consolidated financial statements for the year ended December 31, 2021, except for the adoption of new standards and interpretations effective as of January 1, 2022.

The Group has not early adopted any other standard, interpretation or amendment that has been issued but is not yet effective.

Several amendments and interpretations apply for the first time in 2022, but do not have an impact on the consolidated financial statements of the Group.

The Group presented only the list of standards effective and applicable for the Group.

*Onerous Contracts – Costs of Fulfilling a Contract – Amendments to IAS 37*

The amendments specify that when assessing whether a contract is onerous or loss-making, an entity needs to include costs that relate directly to a contract to provide goods or services including both incremental costs and an allocation of costs directly related to contract activities. General and administrative costs do not relate directly to a contract and are excluded unless they are explicitly chargeable to the counterparty under the contract. These amendments had no impact on the consolidated financial statements of the Group as there were no onerous contracts identified.

*Reference to the Conceptual Framework – Amendments to IFRS 3*

The amendments add an exception to the recognition principle of IFRS 3 *Business Combinations* to avoid the issue of potential ‘day 2’ gains or losses arising for liabilities and contingent liabilities that would be within the scope of IAS 37 *Provisions, Contingent Liabilities and Contingent Assets* or IFRIC 21 *Levies*, if incurred separately. The exception requires entities to apply the criteria in IAS 37 or IFRIC 21, respectively, instead of the *Conceptual Framework*, to determine whether a present obligation exists at the acquisition date. These amendments had no impact on the consolidated financial statements of the Group as there were no contingent assets, liabilities and contingent liabilities within the scope of these amendments arisen during the period.

## NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (continued)

### 3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

#### Changes in accounting policies and disclosures (continued)

##### *New and amended standards and interpretations (continued)*

##### *Property, Plant and Equipment: Proceeds before Intended Use – Amendments to IAS 16*

The amendment prohibits entities from deducting from the cost of an item of property, plant and equipment, any proceeds of the sale of items produced while bringing that asset to the location and condition necessary for it to be capable of operating in the manner intended by management. Instead, an entity recognizes the proceeds from selling such items, and the costs of producing those items, in profit or loss. These amendments had no impact on the consolidated financial statements of the Group as there were no sales of such items produced by property, plant and equipment made available for use on or after the beginning of the earliest period presented.

##### *IFRS 9 Financial Instruments – Fees in the ‘10 per cent’ test for derecognition of financial liabilities*

The amendment clarifies the fees that an entity includes when assessing whether the terms of a new or modified financial liability are substantially different from the terms of the original financial liability. These fees include only those paid or received between the borrower and the lender, including fees paid or received by either the borrower or lender on the other’s behalf. There is no similar amendment proposed for IAS 39 *Financial Instruments: Recognition and Measurement*. These amendments had no impact on the consolidated financial statements of the Group as there were no modifications of the Group’s financial instruments during the period.

##### *Standards issued but not yet effective*

There are new pronouncements issued as at 31 December 2022:

- *Definition of Accounting Estimates - Amendments to IAS 8*
- *Disclosure of Accounting Policies - Amendments to IAS 1 and IFRS 2 Practice Statement*
- *Deferred Tax related to Assets and Liabilities arising from a Single Transaction – Amendments to IAS 12*
- *Lease Liability in a Sale and Leaseback – Amendments to IFRS 16*
- *Classification of Liabilities as Current or Non-current - Amendments to IAS 1*
- *Sale or Contribution of Assets between an Investor and its Associate or Joint Venture - Amendments to IFRS 10 and IAS 28*

#### **Basis of consolidation**

The consolidated financial statements comprise the financial statements of the Company and its subsidiaries as of December 31, 2022. Control is achieved when the Group is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee. Specifically, the Group controls an investee if and only if the Group has: power over the investee (i.e. existing rights that give it the current ability to direct the relevant activities of the investee); exposure, or rights, to variable returns from its involvement with the investee, and; the ability to use its power over the investee to affect its returns.

Generally, there is a presumption that a majority of voting rights result in control. To support this presumption and when the Group has less than a majority of the voting or similar rights of an investee, the Group considers all relevant facts and circumstances in assessing whether it has power over an investee, including: the contractual arrangement with the other vote holders of the investee; rights arising from other contractual arrangements; the Group’s voting rights and potential voting rights.

The Group re-assesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control. Consolidation of a subsidiary begins when the Group obtains control over the subsidiary and ceases when the Group loses control over the subsidiary. Assets, liabilities, revenue and expenses of a subsidiary acquired or disposed of during the year are included in the consolidated statement of comprehensive income from the date the Group gains control until the date the Group ceases to control the subsidiary.

**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (continued)****3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)****Basis of consolidation (continued)**

The financial statements of the subsidiaries are prepared for the same reporting period as the parent company, using consistent accounting policies. Profit or loss and each component of other comprehensive income are attributable to the equity holders of the parent of the Group and to the non-controlling interests, even if this results in the non-controlling interest having a deficit balance. When necessary, adjustments are made to the financial statements of subsidiaries to bring their accounting policies into line with the Group’s accounting policies. All intra-group balances, transactions, unrealized gains and losses resulting from intra-group transactions and dividends are eliminated in full on consolidation. A change in the ownership interest of a subsidiary, without a loss of control, is accounted for as an equity transaction.

If the Group loses control over a subsidiary, it derecognizes the related assets (including goodwill), liabilities, non-controlling interest and other components of equity while any resultant gain or loss is recognized in profit or loss. Any investment retained is recognized at fair value.

**Subsidiaries**

As at December 31, 2022 and 2021, the following direct significant subsidiaries were included in these consolidated financial statements:

Significant entities	Main activity	Country of incorporation	Percentage ownership	
			2022	2021 (restated)
KazMunayGas Exploration Production JSC (further KMG EP)	Exploration and production	Kazakhstan	<b>99.72%</b>	99.72%

KMG International N.V. (further KMG I)	Refinery and marketing of oil products	Romania	<b>100%</b>	100%
KMG Drilling&Services LLP	Drilling services	Kazakhstan	<b>100%</b>	100%

**Business combinations and goodwill**

Business combinations are accounted for using the acquisition method. The cost of an acquisition is measured as the aggregate of the consideration transferred, measured at acquisition date fair value and the amount of any non-controlling interest in the acquiree. For each business combination, the acquirer measures the non-controlling interest in the acquiree either at fair value or at the proportionate share of the acquiree’s identifiable net assets. Acquisition costs incurred are expensed and included in general and administrative expenses.

When the Group acquires a business, it assesses the financial assets acquired and liabilities assumed for appropriate classification and designation in accordance with the contractual terms, economic circumstances and pertinent conditions as at the acquisition date. This includes the separation of embedded derivatives in host contracts by the acquiree.

Any contingent consideration to be transferred by the acquirer will be recognized at fair value at the acquisition date. Contingent consideration classified as an asset or liability that is a financial instrument and within the scope of IFRS 9 *Financial Instruments*, is measured at fair value with changes in fair value recognized in the statement of profit or loss in accordance with IFRS 9. If the contingent consideration is not within the scope of IFRS 9, it is measured at fair value through profit and loss. Contingent consideration that is classified as equity is not remeasured and its subsequent settlement is accounted for within equity.

**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (continued)**

---

**3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)****Business combinations and goodwill (continued)**

Goodwill is initially measured at cost, being the excess of the aggregate of the consideration transferred and the amount recognized for non-controlling interests, and any previous interest held, over the net identifiable assets acquired and liabilities assumed. If the fair value of the net assets acquired is in excess of the aggregate consideration transferred, the Group re-assesses whether it has correctly identified all of the assets acquired and all of the liabilities assumed and reviews the procedures used to measure the amounts to be recognized at the acquisition date. If the reassessment still results in an excess of the fair value of net assets acquired over the aggregate consideration transferred, then the gain is recognized in profit or loss.

After initial recognition, goodwill is measured at cost less any accumulated impairment losses. For the purpose of impairment testing, goodwill acquired in a business combination is, from the acquisition date, allocated to each of the Group's cash-generating units that are expected to benefit from the combination, irrespective of whether other assets or liabilities of the acquiree are assigned to those units.

Where goodwill forms part of a cash-generating unit and part of the operation within that unit is disposed of, the goodwill associated with the operation disposed of is included in the carrying amount of the operation when determining the gain or loss on disposal of the operation. Goodwill disposed in this circumstance is measured based on the relative values of the operation disposed of and the portion of the cash-generating unit retained.

*Business combinations achieved in stages*

The acquisition date fair value of the acquirer's previously held equity interest in the acquiree is remeasured to fair value at the acquisition date through profit or loss.

In a business combination achieved in stages the acquirer recognizes goodwill as of the acquisition date measured as the excess of (a) over (b) below:

- (a) The aggregate of: (i) the consideration transferred measured in accordance with this IFRS 3 *Business Combinations*, which generally requires acquisition-date fair value; (ii) the amount of any non-controlling interest in the acquiree measured in accordance with this IFRS; and (iii) the acquisition-date fair value of the acquirer's previously held equity interest in the acquiree;
- (b) The net of the acquisition-date amounts of the identifiable assets acquired and the liabilities assumed.

*Acquisition of subsidiaries from parties under common control*

Acquisitions of subsidiaries from parties under common control are accounted for using the pooling of interest method.

The assets and liabilities of the subsidiary transferred under common control are recorded in the consolidated financial statements at the carrying amounts of the transferring entity (the Predecessor) at the date of the transfer. Related goodwill, if any, inherent in the Predecessor's original acquisition is also recorded in the consolidated financial statements. Any difference between the total book value of net assets, including the Predecessor's goodwill, and the consideration paid is accounted for in the consolidated financial statements as an adjustment to equity.

The consolidated financial statements, including corresponding figures, are presented as if the subsidiary had been acquired by the Group on the date it was originally acquired by the Predecessor.

*Acquisition of joint ventures and associates from parties under common control*

Acquisition of joint ventures and associates from parties under common control are accounted for using the pooling of interest method.

The Group's share in the assets and liabilities of the joint ventures and associates transferred under common control is recorded in the consolidated financial statements at the carrying amounts of the transferring entity (the Predecessor) at the date of the transfer. Any difference between the Group's share in the total book value of net assets, and the consideration paid is accounted for in the consolidated financial statements as an adjustment to equity.

**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (continued)**

---

**3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)****Joint operations**

A joint operation is a type of joint arrangement whereby the parties that have joint control of the arrangement have rights to the assets and obligations for the liabilities, relating to the arrangement. In relation to its interests in joint operations, the Group recognizes its: Assets, including its share of any assets held jointly; Liabilities, including its share of any liabilities incurred jointly; Revenue from the sale of its share of the output arising from the joint operation; Share of the revenue from the sale of the output by the joint operation; Expenses, including its share of any expenses incurred jointly.

**Investment in associates and joint ventures**

An associate is an entity over which the Group has significant influence. Significant influence is the power to participate in the financial and operating policy decisions of the investee, but which does not comprise control or joint control over those policies.

A joint venture is a type of joint arrangement whereby the parties that have joint control of the arrangement have rights to the net assets of the joint venture. Joint control is the contractually agreed sharing of control of an arrangement, which exists only when decisions about the relevant activities require unanimous consent of the parties sharing control. Under contractual arrangement that establishes joint control the Group may own less than 50% of shares in joint ventures.

The considerations made in determining significant influence or joint control are similar to those necessary to determine control over subsidiaries. The Group's investments in its joint venture and associates are accounted for using the equity method.

Under the equity method, the investment in a joint venture or an associate is initially recognized at cost. The carrying amount of the investment is adjusted to recognize changes in the Group's share of net assets of the joint venture or associate since the acquisition date. Goodwill relating to the joint venture or associate is included in the carrying amount of the investment and is neither amortized nor individually tested for impairment.

The consolidated statement of comprehensive income reflects the Group's share of the results of operations of the joint venture or associate. Any change in other comprehensive income of those investees is presented as part of the Group's other comprehensive income. In addition, when there has been a change recognized directly in the equity of the joint venture or associate, the Group recognizes its share of any changes, when applicable, in the consolidated statement of changes in equity. Unrealized gains and losses resulting from transactions between the Group and the joint venture or associate are eliminated to the extent of the interest in the joint venture or associate.

The aggregate of the Group's share in profit or loss of a joint venture and an associate is shown on the face of the consolidated statement of comprehensive income and represents profit or loss after tax and non-controlling interest in the subsidiaries of the joint venture or associate. The financial statements of the joint venture or associate are prepared for the same reporting period as the Group. When necessary, adjustments are made to bring their accounting policies in line with those of the Group.

After application of the equity method, the Group determines whether it is necessary to recognize an impairment loss on its investment in its joint venture or associate. At each reporting date, the Group determines whether there is objective evidence that the investment in the joint venture or associate is impaired. If there is such evidence, the Group calculates the amount of impairment as the difference between the recoverable amount of the associate or joint venture and its carrying value, and then recognizes the loss as “Impairment of investment in joint venture and associate” in the consolidated statement of comprehensive income.

Upon loss of joint control over the joint venture or significant influence over the associate, the Group measures and recognizes any retained investment at its fair value. Any difference between the carrying amount of the joint venture or associate upon loss of joint control or significant influence and the fair value of the retained investment and proceeds from disposal is recognized in profit or loss.

**Current versus non-current classification**

The Group presents assets and liabilities in the consolidated statement of financial position based on current/non-current classification. An asset is classified as current when it is: expected to be realized or intended to sold or consumed in normal operating cycle; held primarily for the purpose of trading; expected to be realized within 12 (twelve) months after the reporting period; or it is cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least 12 (twelve) months after the reporting period. All other assets are classified as non-current.

**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (continued)**

---

**3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)****Current versus non-current classification (continued)**

A liability is classified as current when it is: expected to be settled in normal operating cycle; held primarily for the purpose of trading; due to be settled within 12 (twelve) months after the reporting period; or there is no unconditional right to defer the settlement of the liability for at least 12 (twelve) months after the reporting period. The Group classifies all other liabilities as non-current.

Deferred tax assets and liabilities are always classified as non-current assets and liabilities.

**Oil and natural gas exploration, evaluation and development expenditure***Costs incurred before obtaining subsoil use rights (licenses)*

Costs incurred before obtaining full subsoil use rights (licenses) are expensed in the period in which they are incurred, except when costs are incurred after signing preliminary agreements with the Government of RK, in such cases costs incurred after this date are capitalized in exploration and evaluation assets.

*Subsoil use rights and property acquisition costs*

Exploration and production subsoil use rights and related property acquisition costs are capitalized within exploration and evaluation assets and subclassified as intangible. Each property under exploration and appraisal is reviewed on an annual basis to confirm that drilling activity is planned and it is not impaired. If no future activity is planned, the carrying amount of the exploration subsoil use right and related property acquisition costs is written off. Upon determination of economically recoverable reserves (‘proved reserves’ or ‘commercial reserves’) and internal approval of development, the carrying amount of the subsoil use right and related property acquisition costs held on a field-by-field basis is aggregated with exploration and evaluation assets and transferred to oil and gas assets or intangible assets.

*Exploration and evaluation costs*

Once the legal right to explore has been acquired, geological and geophysical exploration costs and costs directly associated with exploration and appraisal wells, including unsuccessful development or delineation wells are capitalized as exploration and evaluation intangible or tangible assets, according to the nature of the costs, until the drilling of the well is complete and the results have been evaluated. These costs include employee remuneration, materials and fuel used, rig costs and payments made to contractors. If no expected reserves are found, the exploration and evaluation asset is tested for impairment. If extractable hydrocarbons are found and, subject to further appraisal activity, which may include the drilling of further wells, are likely to be developed commercially; the costs continue to be carried as an asset while sufficient/continued progress is made in assessing the commerciality of the hydrocarbon reserves. All such carried costs are subject to technical, commercial and management review as well as review for impairment at least once a year to confirm the continued intent to develop or otherwise extract value from the discovery.

When proved reserves of hydrocarbons are determined and development is sanctioned, the relevant expenditure is transferred to oil and gas assets after impairment is assessed and impairment loss recognized, if any.

When this is no longer the case, and the Group decides to relinquish the contract territory to the Government and terminate the subsoil use contracts, the assets are written off.

*Development costs*

Expenditures on the construction, installation or completion of infrastructure facilities such as platforms, pipelines and the drilling of development wells, are capitalized within oil and gas assets.

**Oil and gas assets and other property, plant and equipment**

Oil and gas assets and other property, plant and equipment are stated at cost less accumulated depreciation, depletion and impairment.

The initial cost of an asset comprises its purchase price or construction cost, borrowing cost for long-term construction or development project, if recognition criteria is met, any costs directly attributable to bringing the asset into operation and the initial estimate of decommissioning obligation, if there is any. The purchase price or construction cost is the aggregate amount paid and the fair value of any other consideration given to acquire the asset.

**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (continued)****3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)****Oil and gas assets and other property, plant and equipment (continued)**

Oil and gas assets are depreciated using a unit-of-production method, whereas tangible assets are depreciated over proved developed reserves and intangible assets – over proved reserves. Certain oil and gas assets with useful lives less than the remaining life of the fields or term of the subsoil use contracts are depreciated on a straight-line basis over useful lives.

Property, plant and equipment other than oil and gas assets and land principally comprise buildings, machinery and equipment, vehicles and others that are depreciated on a straight-line basis over the expected remaining useful average lives as follows:

Refinery assets	4-100 years
Pipelines	2-30 years
Buildings and improvements	2-100 years
Machinery and equipment	2-30 years
Vehicles	3-35 years
Other	2-20 years
Land	Not depreciated

The expected useful lives of property, plant and equipment are reviewed on an annual basis and, if necessary, changes in useful lives are accounted for prospectively.

The carrying value of property, plant and equipment is reviewed for impairment whenever events or changes in circumstances indicate the carrying value may not be recoverable.

An item of property, plant and equipment, inclusive of production wells which stop producing commercial quantities of hydrocarbons and are scheduled for abandonment, is derecognized upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the item) is included in the profit or loss in the period the item is derecognized.

**Intangible assets**

Intangible assets are stated at cost, less accumulated amortization and accumulated impairment losses. Intangible assets include expenditure on acquiring subsoil use rights for oil and natural gas exploration, evaluation and development, computer software and goodwill. Intangible assets acquired separately from a business are carried initially at cost. The initial cost is the aggregate amount paid and the fair value of any other consideration given to acquire the asset.

Intangible assets, except for goodwill and subsoil use rights, are amortized on a straight-line basis over the expected remaining useful life. The expected useful lives of the assets are reviewed on an annual basis and, if necessary, changes in useful lives are accounted for prospectively. Computer software costs have an estimated useful life of 3 to 7 years.

The carrying value of intangible assets is reviewed for impairment whenever events or changes in circumstances indicate the carrying value may not be recoverable. Goodwill is tested for impairment annually (as at December 31) and when circumstances indicate that the carrying value may be impaired.

Impairment is determined for goodwill by assessing the recoverable amount of each cash-generating unit (or group of cash-generating units) to which the goodwill relates. Where the recoverable amount of the cash generating unit is less than their carrying amount an impairment loss is recognized. Impairment losses relating to goodwill cannot be reversed in future periods.

**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (continued)**

---

**3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)****Impairment of non-financial assets**

The Group assesses at each reporting date whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the Group estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's or cash-generating unit's (CGU) fair value less costs to sell and its value in use and is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets. Where the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset.

In determining fair value less costs to sell, an appropriate valuation model is used. These calculations are corroborated by valuation multiples, quoted share prices for publicly traded subsidiaries or other available fair value indicators.

Impairment losses of continuing operations are recognized in the consolidated statement of comprehensive income in those expense categories consistent with the function of the impaired asset.

The Group bases its impairment calculation on detailed budgets and forecast calculations, which are prepared separately for each of the Group's CGUs to which the individual assets are allocated. These budgets and forecast calculations generally cover a period of 5 (five) years. For longer periods, a long-term growth rate is calculated and applied to projected future cash flows after the fifth year.

For assets excluding goodwill, an assessment is made at each reporting date as to whether there is any indication that previously recognized impairment losses may no longer exist or may have decreased. If such indication exists, the Group estimates the asset's or cash-generating unit's recoverable amount. A previously recognized impairment loss is reversed only if there has been a change in the assumptions used to determine the asset's recoverable amount since the last impairment loss was recognized. The reversal is limited so that the carrying amount of the asset does not exceed its recoverable amount, nor exceed the carrying amount that would have been determined, net of accumulated depreciation, had no impairment loss been recognized for the asset in prior years. Such reversal is recognized in the consolidated statement of comprehensive income.

**Impairment of exploration and evaluation assets**

Exploration and evaluation assets are tested for impairment when reclassified to oil and gas development tangible or intangible assets or whenever facts and circumstances indicate impairment.

One or more of the following facts and circumstances indicate that the Group should test exploration and evaluation assets for impairment (the list is not exhaustive):

- The period for which the Group entity has the right to explore and appraise in the specific area has expired during the period or will expire in the near future, and is not expected to be renewed;
- Substantive expenditure on the further exploration for and evaluation of hydrocarbon resources in the specific area is neither budgeted nor planned;
- Exploration for and evaluation of hydrocarbon resources in the specific area have not led to the discovery of commercially viable quantities of hydrocarbon resources and the Group entity has decided to discontinue such activities in the specific area;
- Sufficient data exist to indicate that, although a development in the specific area is likely to proceed, the carrying amount of the exploration and evaluation asset is unlikely to be recovered in full from successful development or by sale.

**Non-current assets held for sale and discontinued operations**

Non-current assets and disposal groups classified as held for sale are measured at the lower of their carrying amount and fair value less costs to sell. Non-current assets and disposal groups are classified as held for sale if their carrying amounts will be recovered principally through a sale transaction rather than through continuing use. This condition is regarded as met only when the sale is highly probable and the asset or disposal group is available for immediate sale in its present condition.

Management must be committed to the sale, which should be expected to qualify for recognition as a completed sale within one year from the date of classification.

**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (continued)**

---

**3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)****Non-current assets held for sale and discontinued operations (continued)**

In the consolidated statement of comprehensive income of the reporting period, and of the comparable period of the previous year, income and expenses from discontinued operations are reported separately from income and expenses from continuing operations, down to the level of profit after taxes, even when the Group retains a non-controlling interest in the subsidiary after the sale. The resulting profit or loss (after taxes) is reported separately in the consolidated statement of comprehensive income.

Property, plant and equipment and intangible assets once classified as held for sale are not depreciated or amortized.

**Asset retirement obligation (decommissioning)**

Provision for decommissioning is recognized in full, on a discounted cash flow basis, when the Group has an obligation to dismantle and remove a facility or an item of plant, property and equipment and to restore the site on which it is located, and when a reasonable estimate of that provision can be made. The amount recognized is the present value of the estimated future expenditure determined in accordance with local conditions and requirements. A corresponding item of property, plant and equipment of an amount equivalent to the provision is also created. This asset is subsequently depreciated as part of the capital costs of the production and transportation facilities based on the appropriate depreciation method.

Changes in the measurement of an existing decommissioning provision that result from changes in the estimated timing or amount of the outflow of resources embodying economic benefits required to settle the obligation, or change in the discount rate, is accounted for so that:

- (a) Changes in the provision are added to, or deducted from, the cost of the related asset in the current period;
- (b) The amount deducted from the cost of the asset shall not exceed its carrying amount. If a decrease in the provision exceeds the carrying amount of the asset, the excess is recognized immediately in the consolidated statement of comprehensive income; and
- (c) If the adjustment results in an addition to the cost of an asset, the Group considers whether this is an indication that the new carrying amount of the asset may not be fully recoverable. If it is such an indication, the Group tests the asset for impairment by estimating its recoverable amount, and accounts for any impairment loss, in accordance with IAS 36.

**Financial assets*****Initial recognition and measurement***

Financial assets are classified, at initial recognition, as subsequently measured at amortized cost, fair value through other comprehensive income, and fair value through profit or loss. The classification of financial assets at initial recognition depends on the financial asset's contractual cash flow characteristics and the Group's business model for managing them. With the exception of trade receivables that do not contain a significant financing component or for which the Group has applied the practical expedient, the Group initially measures a financial asset at its fair value plus, in the case of a financial asset not at fair value through profit or loss, transaction costs. Trade receivables that do not contain a significant financing component or for which the Group has applied the practical expedient are measured at the transaction price determined under IFRS 15.

In order for a debt financial asset to be classified and measured at amortized cost or fair value through other comprehensive income, it needs to give rise to cash flows that are 'solely payments of principal and interest (SPPI)' on the principal amount outstanding. This assessment is referred to as the SPPI test and is performed at an instrument level. The Group's business model for managing financial assets refers to how it manages its financial assets in order to generate cash flows. The business model determines whether cash flows will result from collecting contractual cash flows, selling the financial assets, or both. Purchases or sales of financial assets that require delivery of assets within a time frame established by regulation or convention in the market place (regular way trades) are recognized on the trade date, i.e., the date that the Group commits to purchase or sell the asset.

**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (continued)**

---

**3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)****Financial assets (continued)***Subsequent measurement*

For purposes of subsequent measurement, financial assets are classified in two categories:

- Financial assets at amortized cost (debt instruments);
- Financial assets at fair value through profit or loss.

The Group does not have financial assets at fair value through other comprehensive income.

*Initial recognition and measurement**Financial assets at amortized cost (debt instruments)*

This category is the most relevant to the Group. The Group measures financial assets at amortized cost if both of the following conditions are met:

- The financial asset is held within a business model with the objective to hold financial assets in order to collect contractual cash flows; and
- The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Financial assets at amortized cost are subsequently measured using the effective interest rate method and are subject to impairment. Gains and losses are recognized in profit or loss when the asset is derecognized, modified or impaired. The Group's financial assets at amortized cost include trade and other receivables, loans due from related parties and bank deposits.

*Financial assets at fair value through profit or loss*

Financial assets at fair value through profit or loss include certain loans due from related parties, which contain embedded derivative financial instruments. Financial assets with cash flows that are not solely payments of principal and interest are classified and measured at fair value through profit or loss, irrespective of the business model. Notwithstanding the criteria for debt instruments to be classified at amortized cost or at fair value through other comprehensive income, as described above, debt instruments may be designated at fair value through profit or loss on initial recognition if doing so eliminates, or significantly reduces, an accounting mismatch.

Financial assets at fair value through profit or loss are carried in the consolidated statement of financial position at fair value with net changes in fair value recognized in the consolidated statement of comprehensive income within the profit and loss.

**Derecognition**

A financial asset is primarily derecognized (removed from the consolidated statement of financial position) when:

- The rights to receive cash flows from the asset have expired; or
- The Group has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement; and either (a) the Group has transferred substantially all the risks and rewards of the asset, or (b) the Group has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

When the Group has transferred its rights to receive cash flows from an asset or has entered into a pass-through arrangement, it evaluates if, and to what extent, it has retained the risks and rewards of ownership. When it has neither transferred nor retained substantially all of the risks and rewards of the asset, nor transferred control of the asset, the Group continues to recognize the transferred asset to the extent of its continuing involvement. In that case, the Group also recognizes an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Group has retained. Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of the original carrying amount of the asset and the maximum amount of consideration that the Group could be required to repay.

**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (continued)**

---

**3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)****Financial assets (continued)***Impairment of financial assets*

The Group recognizes an allowance for expected credit losses (ECL) for all debt instruments not held at fair value through profit or loss. ECL are based on the difference between the contractual cash flows due in accordance with the contract and all the cash flows that the Group expects to receive, discounted at an approximation of the original effective interest rate. The expected cash flows will include cash flows from the sale of collateral held or other credit enhancements that are integral to the contractual terms.

ECL are recognized in two stages. For credit exposures for which there has not been a significant increase in credit risk since initial recognition, ECL are provided for credit losses that result from default events that are possible within the next 12-months (a 12-month ECL). For those credit exposures for which there has been a significant increase in credit risk since initial recognition, a loss allowance is required for credit losses expected over the remaining life of the exposure, irrespective of the timing of the default (a lifetime ECL).

For trade and other receivables, the Group applies a simplified approach in calculating ECL. Therefore, the Group does not track changes in credit risk, but instead recognizes a loss allowance based on lifetime ECL at each reporting date. The Group has established a provision matrix that is based on its historical credit loss experience, adjusted for forward-looking factors specific to the debtors and the economic environment.

The Group considers a financial asset in default when contractual payments are 90 days past due. However, in certain cases, the Group may also consider a financial asset to be in default when internal or external information indicates that the Group is unlikely to receive the outstanding contractual amounts in full before taking into account any credit enhancements held by the Group. A financial asset is written off when there is no reasonable expectation of recovering the contractual cash flows.

**Inventories**

Inventories are stated at the lower of cost and net realizable value on a first-in first-out (FIFO) basis. Cost includes all costs incurred in the normal course of business in bringing each product to its present location and condition. The cost of crude oil and refined products is the cost of production, including the appropriate proportion of depreciation, depletion and amortization and overheads based on normal capacity. Net realizable value of crude oil and refined products is based on estimated selling price in the ordinary course of business less any costs expected to be incurred to complete the sale.

**Value added tax (VAT)**

The tax authorities permit the settlement of VAT on sales and purchases on a net basis. VAT receivable represents VAT on domestic purchases net of VAT on domestic sales. Export sales are zero rated.

**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (continued)**

---

**3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)****Cash and cash equivalents**

Cash and cash equivalents include cash in bank and cash on hand, demand deposits with banks with original maturities of three months or less.

**Financial liabilities*****Initial recognition and measurement***

Financial liabilities are classified, at initial recognition, as financial liabilities at fair value through profit or loss, loans borrowings and payables, or as derivatives financial instruments.

All financial liabilities are recognized initially at fair value and in the case of loans and borrowings, plus directly attributable transaction costs.

The Group's financial liabilities include trade and other payables, loans and borrowings and derivative financial instruments.

***Subsequent measurement***

The measurement of financial liabilities depends on their classification as follows:

***Financial liabilities at fair value through profit or loss***

Financial liabilities at fair value through profit or loss includes financial liabilities held for trading and financial liabilities designated upon initial recognition as at fair value through profit or loss.

Financial liabilities are classified as held for trading if they are acquired for the purpose of selling in the near term. This category includes derivative financial instruments entered into by the Group that are not designated as hedging instruments in hedge relationships as defined by IFRS 9. Separated embedded derivatives are also classified as held for trading unless they are designated as effective hedging instruments.

Gains or losses on liabilities held for trading are recognized in profit or loss.

The Group has not designated any financial liabilities upon initial recognition as at fair value through profit or loss.

***Trade and other payables***

Trade payables are recognized initially at fair value and subsequently measured at amortized cost using the effective interest method.

***Loans and borrowings***

After initial recognition, interest bearing loans and borrowings are subsequently measured at amortized cost using the effective interest rate method. Gains and losses are recognized in the consolidated statement of comprehensive income when the liabilities are derecognized as well as through the effective interest rate amortization process.

Amortized cost is calculated by taking into account any discount or premium on acquisition and fee or costs that are an integral part of the effective interest rate. The effective interest rate amortization is included in finance costs.

Borrowings are classified as current liabilities unless the Group has an unconditional right to defer settlement of the liability for at least twelve months after the reporting date. Borrowing costs that are directly attributable to the acquisition, construction or production of a qualifying asset are capitalized as part of the cost of that asset. Other borrowing costs are recognized as an expense when incurred.

***Financial guarantee contracts***

Financial guarantee contracts issued by the Group are those contracts that require a payment to be made to reimburse the holder for a loss it incurs because the specified debtor fails to make a payment when due in accordance with the terms of a debt instrument. Financial guarantee contracts are recognized initially as a liability at fair value, adjusted for transaction costs that are directly attributable to the issuance of the guarantee. Subsequently, the liability is measured at the higher of the expected credit losses allowance calculated under IFRS 9 and the amount recognized less cumulative amortization, if any.

**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (continued)**

---

**3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)****Financial liabilities (continued)*****Derecognition***

A financial liability is derecognized when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as a derecognition of the original liability and the recognition of a new liability, and the difference in the respective carrying amounts is recognized in profit or loss.

**Offsetting of financial instruments**

Financial assets and financial liabilities are offset and the net amount reported in the consolidated statement of financial position if, and only if, there is a currently enforceable legal right to offset the recognized amounts and there is an intention to settle on a net basis, or to realize the assets and settle the liabilities simultaneously.

**Fair value of financial instruments**

The fair value of financial instruments that are traded in active markets at each reporting date is determined by reference to quoted market prices or dealer price quotations (bid price for long positions and ask price for short positions), without any deduction for transaction costs.

For financial instruments not traded in an active market, the fair value is determined using appropriate valuation techniques. Such techniques may include using recent arm's length market transactions; reference to the current fair value of another instrument that is substantially the same; a discounted cash flow analysis or other valuation models.

**Provisions**

Provisions are recognized when the Group has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. When the Group expects a provision to be reimbursed, for example under an insurance contract, the reimbursement is recognized as a separate asset, but only when the reimbursement is virtually certain.

If the effect of the time value of money is material, provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and, where appropriate, the risks specific to the liability. Where discounting is used, the increase in the provision due to the passage of time is recognized as a finance cost.

***Provision for obligations to the Government***

The Government assigns various sponsorship and financing obligations to the Group. Management of the Group believes that such Government's assignments represent constructive obligations of the Group and require recognition on the basis of respective resolution of the Government. Furthermore, as the Government is the ultimate controlling party of the Group, the expenditures on these assignments are recognized as other distributions to the Shareholders directly in the equity, in the consolidated financial statements.

**Employee benefits*****Pension scheme***

Payments to defined contribution retirement benefit plans are charged as an expense as they fall due. Payments made to state – managed retirement benefit schemes are dealt with as defined contribution plans where the Group's obligations under the scheme are equivalent to those arising in a defined contribution retirement benefit plan.

***Long-term employee benefits***

The Group provides long-term employee benefits to employees before, on and after retirement, in accordance with the collective agreements between the Group entities and their employees. The collective agreement provides for certain one-off retirement payments, financial aid for employees' disability, anniversaries, funeral and other benefits. The entitlement to benefits is usually conditional on the employee remaining in service up to retirement age.

**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (continued)**

---

**3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)****Employee benefits (continued)***Long-term employee benefits (continued)*

The expected costs of the benefits associated with one-off retirement payments are accrued over the period of employment using the same accounting methodology as used for defined benefit post-employment plans with defined payments upon the end of employment. Actuarial gains and losses arising in the year are taken to other comprehensive income. For this purpose, actuarial gains and losses comprise both the effects of changes in actuarial assumptions and experience adjustments arising because of differences between the previous actuarial assumptions and what has actually occurred. Other movements are recognized in the current period, including current service cost, any past service cost and the effect of any curtailments or settlements.

The most significant assumptions used in accounting for defined benefit obligations are discount rate and mortality assumptions. The discount rate is used to determine the net present value of future liabilities and each year the unwinding of the discount on those liabilities is charged to the consolidated statement of comprehensive income as finance costs. The mortality assumption is used to project the future stream of benefit payments, which is then discounted to arrive at a net present value of liabilities.

Employee benefits other than one-off retirement payments are considered as other long-term employee benefits. The expected cost of these benefits is accrued over the period of employment using the same accounting methodology as used for the defined benefit plan. Actuarial gains and losses on other long-term employee benefits are recognized in the profit or loss. These obligations are valued by independent qualified actuaries on an annual basis.

**Revenue recognition**

Revenues are recognized when (or as) the Group satisfies a performance obligation by transferring a promised good or service (i.e. an asset) to a customer. An asset is transferred when (or as) the customer obtains control of that asset, which usually occurs when the title is passed, provided that the contract price is fixed or determinable and collectability of the receivable is reasonably assured. Specifically, domestic sales of crude oil and gas, as well as petroleum products and materials are usually recognized when title passes. For export sales, title generally passes at the border of the RK. Revenue is measured at the fair value of the consideration received or receivable taking into account the amount of any trade discounts, volume rebates and reimbursable taxes.

Sales of support services are recognized as services are performed provided that the service price can be determined and no significant uncertainties regarding the receipt of revenues exist.

*Interest income and expense*

For all financial instruments measured at amortized cost, and interest income and interest expense are recorded using the effective interest rate. Effective interest rate is the rate that exactly discounts the estimated future cash payments or receipts over the expected life of the financial instrument or a shorter period, where appropriate, to the net carrying amount of the financial asset or liability. Interest income is included in finance income and interest expense is included in finance costs in the consolidated statement of comprehensive income.

*Trade receivables*

A receivable represents the Group's right to an amount of consideration that is unconditional (i.e., only the passage of time is required before payment of the consideration is due).

*Contract liabilities*

A contract liability is the obligation to transfer goods or services to a customer for which the Group has received consideration (or an amount of consideration is due) from the customer. If a customer pays consideration before the Group transfers goods or services to the customer, a contract liability is recognized when the payment is made or the payment is due (whichever is earlier). Contract liabilities are recognized as revenue when the Group performs under the contract.

**Expense recognition**

Expenses are recognized as incurred and are reported in the consolidated financial statements in the period to which they relate on an accrual basis.

**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (continued)**

---

**3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)****Income taxes**

Income tax for the year comprises current income tax, excess profit tax and deferred tax. Current income tax assets and liabilities for the current and prior periods are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted by the reporting date. Current income tax (CIT) relating to items recognized directly in equity is recognized in equity and not in the consolidated statement of comprehensive income.

Excess profit tax (EPT) is treated as an income tax and forms part of income tax expense. In accordance with the applicable tax legislation, the Group accrues and pays EPT in respect of each subsoil use contract, at varying rates based on the ratio of aggregate annual income to deductions for the year for a particular subsoil use contract. The ratio of aggregate annual income to deductions in each tax year triggering the application of EPT is 1.25:1. EPT rates are applied to the part of the taxable income (taxable income after corporate income tax and allowable adjustments) related to each subsoil use contract in excess of 25% of the deductions attributable to each contract.

Deferred tax is calculated with respect to both CIT and EPT. Deferred EPT is calculated on temporary differences for assets allocated to subsoil use contracts at the expected rate of EPT to be paid under the contract.

Deferred income tax is provided using the liability method on temporary differences at the reporting date between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes.

Deferred income tax liabilities are recognized for all taxable temporary differences, except:

- Where the deferred income tax liability arises from the initial recognition of goodwill or of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss; and
- In respect of taxable temporary differences associated with investments in subsidiaries, associates and interests in joint ventures, where the timing of the reversal of the temporary differences can be controlled and it is probable that the temporary differences will not reverse in the foreseeable future.

Deferred income tax assets are recognized for all deductible temporary differences, carryforward of unused tax credits and unused tax losses, to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carryforward of unused tax credits and unused tax losses can be utilized except:

- When the deferred income tax asset relating to the deductible temporary difference arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss; and
- In respect of deductible temporary differences associated with investments in subsidiaries, associates and interests in joint ventures, deferred income tax assets are recognized only to the extent that it is probable that the temporary differences will reverse in the foreseeable future and taxable profit will be available against which the temporary differences can be utilized.

The carrying amount of deferred income tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred income tax asset to be utilized. Unrecognized deferred income tax assets are reassessed at each reporting date and are recognized to the extent that it has become probable that future taxable profit will allow the deferred tax asset to be recovered. Deferred income tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realized or the liability is settled, based on tax rates and tax laws that have been enacted or substantively enacted at the reporting date.

Deferred income tax relating to items recognized directly in equity is recognized in equity and not in the consolidated statement of comprehensive income. Deferred income tax assets and deferred income tax liabilities are offset, if a legally enforceable right exists to set off current tax assets against current income tax liabilities and the deferred income taxes relate to the same taxable entity and the same taxation authority. Deferred tax assets are recognized for all allowances and unused tax losses to the extent that it is probable that taxable temporary differences and business nature of such expenses will be proved. Significant management judgment is required to determine the amount of deferred tax assets that can be recognized, based upon the likely timing and level of future taxable profits together with future tax planning strategies.

**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (continued)**

---

**3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)****Equity***Non-controlling interest*

Non-controlling interests are presented in the consolidated statement of financial position within equity, separately from the equity of the Company’s owners. Total comprehensive income is attributed to the Company’s owners and to the non-controlling interests even if this results in the non-controlling interests having a deficit balance.

*Dividends*

Dividends are recognized as a liability and deducted from equity at the reporting date only if they are declared before or on the reporting date. Dividends are disclosed when they are declared before the reporting date or after the reporting date but before the consolidated financial statements are authorized for issue.

*Distributions to the Shareholders*

Expenditures incurred by the Group based on the respective resolution of the Government based on the RK President’s charge or decision and instructions of Samruk-Kazyna are accounted for as other distributions through equity. Such expenditures include costs associated with non-core activity of the Group (construction of social assets to be transferred to Samruk-Kazyna).

**Subsequent events**

The results of post-year-end events that provide evidence of conditions that existed at the reporting date (adjusting events) are reflected in the consolidated financial statements. Post-year-end events that are not adjusting events are disclosed in the notes to the consolidated financial statements when material.

**4. SIGNIFICANT ACCOUNTING ESTIMATES AND JUDGEMENTS**

The preparation of the Group’s consolidated financial statements requires management to make judgments, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities and the disclosure of contingent liabilities and assets, at the reporting date. However, uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of the asset or liability affected in future periods.

**Impairment testing assumptions**

The Group assessed the existence of impairment indicators of non-current assets and where impairment indicators were identified, the Group performed the impairment tests.

The Group’s long-term assumptions for Brent oil prices, KZT/USD exchange rate and inflation projections have been revised and are based on externally sourced forecasts and rates of the independent research organizations considering long-term market expectations. Production volumes estimates are based on proved developed and undeveloped reserves for subsidiaries, and on proved and probable reserves for significant investments in joint ventures and associates. Production period is either based on subsoil use contracts’ expiration date or on extended license period, to which the Group has strong intention to extend its licenses. Estimated production volumes are based on the Group’s production plans that are mostly used for the purposes of application filing for extension of subsoil use contracts.

Discount rates were estimated on the weighted average cost of capital of the individual cash generating unit and ranged between 12.01-17.09% depending on the functional currency, production period, size, equity risk premium, beta and gearing ratio of the relevant CGU.

**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (continued)****4. SIGNIFICANT ACCOUNTING ESTIMATES AND JUDGEMENTS (continued)****Impairment testing assumptions (continued)**

The long-term price assumptions applied were derived from Bloomberg consensus; so did the near-term commodity price assumptions, a summary of which, in real 2022 terms, is provided below:

	2023	2024	2025	2026	2027
Brent oil (ICE Brent \$/bbl)	93.94	88.00	85.00	80.05	81.65

In “*Exploration and production of oil and gas segment*” net impairment charges were 12,113 million tenge for 2022. Impairment charges mainly relate to the exploration and evaluation assets in the amount of 8,895 million tenge of Southern Urlikhtau project and in the amount of 3,172 million tenge of Isatay project.

Headroom of the majority of oil and refining assets are sensitive to changes in price or other assumptions. The changes within next financial periods may result in recoverable amount of these assets above or below the current carrying amounts and therefore there is a risk of impairment reversals or charges in those periods.

**Oil and gas reserves**

Oil and gas reserves are a material factor in the Group’s computation of depreciation, depletion and amortization expenses. The Group estimates its oil and gas reserves in accordance with the methodology of the Society of Petroleum Engineers (SPE). In estimating its reserves under SPE methodology, the Group uses long-term planning prices. Using planning prices for estimating proved reserves removes the impact of the volatility inherent in using year-end spot prices. Management believes that long-term planning price assumptions, which are also used by management for their business planning and investment decisions are more consistent with the long-term nature of the upstream business and provide the most appropriate basis for estimating oil and gas reserves.

All reserve estimates involve some degree of uncertainty. The uncertainty depends mainly on the amount of reliable geological and engineering data available at the time of the estimate and the interpretation of this data.

The relative degree of uncertainty can be conveyed by placing reserves into one of two principal classifications, either proved or unproved. Proved reserves are more certain to be recovered than unproved reserves and may be further sub-classified as developed and undeveloped to denote progressively increasing uncertainty in their recoverability.

Estimates are reviewed and revised annually. Revisions occur due to the evaluation or re-evaluation of already available geological, reservoir or production data, availability of new data, or changes to underlying price assumptions. Reserve estimates may also be revised due to improved recovery projects, changes in production capacity or changes in development strategy. Proved developed reserves are used to calculate the unit of production rates for depreciation, depletion and amortization in relation to oil and gas production assets. The Group has included in proved reserves only those quantities that are expected to be produced during the initial subsoil use contract period. This is due to the uncertainties surrounding the outcome of such renewal procedures, since the renewal is ultimately at the discretion of the Government. An increase in the Group’s subsoil use contract periods and corresponding increase in reported reserves would generally lead to lower depreciation, depletion and amortization expense and could materially affect earnings. A reduction in proved developed reserves will increase depreciation, depletion and amortization expense (assuming constant production), reduce income and could also result in an immediate write-down of the property’s book value. Given the relatively small number of producing fields, it is possible that any changes in reserve estimates year on year could significantly affect prospective charges for depreciation, depletion and amortization.

Please refer *Note 15* for details on annual impairment test results.

**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (continued)**

---

**4. SIGNIFICANT ACCOUNTING ESTIMATES AND JUDGEMENTS (continued)****Recoverability of oil and gas assets, downstream, refining and other assets**

The Group assesses assets or CGU for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. Where an indicator of impairment exists, a formal estimate of the recoverable amount is made, which is considered to be the higher of the fair value less costs to sell and value in use. These assessments require the use of estimates and assumptions such as long-term oil prices, discount rates, future capital requirements, operating performance (including production and sales volumes) that are subject to risk and uncertainty. Where the carrying amount of an asset or CGU exceeds its recoverable amount, the asset/CGU is considered to be impaired and is written down to its recoverable amount. In assessing recoverable values, the estimated future cash flows are adjusted for the risks specific to the asset group and are discounted to their present value using a discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. Fair value less costs to sell is identified as the price that would be received to sell the asset in an orderly transaction between market participants and does not reflect the effects of factors that may be specific to the entity and not applicable to entities in general.

***KMGI CGU, including goodwill***

As at December 31, 2022 and 2021, the Group performed its annual impairment tests for goodwill and downstream, refining and other assets due to existence of impairment indicators at the CGUs of KMGI. As the result of the impairment analysis, recoverable amount of KMGI CGUs exceeded their carrying values (*Note 15*).

***Pavlodar refinery, goodwill***

As of December 31, 2022 and 2021 the Group has goodwill of 88,553 million tenge related to acquisition of Pavlodar oil chemistry refinery LLP (further Pavlodar refinery) (*Note 19*). The Group performed annual impairment test for the Pavlodar refinery goodwill using the current tolling business scheme employed by Pavlodar refinery in December 2022 and 2021. The Group considered the forecast for oil tolling volumes, oil tolling tariffs, capital expenditures, among other factors, when reviewing for indicators of impairment. The recoverable amount is calculated using a discounted cash flow model. In 2022, the discount rate of 12.86% (2021: 12.06%) was calculated based on the pre-tax weighted average cost of capital. The inherent risk was included by applying an individual beta factor. The beta factor was estimated based on the publicly available market data. Forecasted cash flows till to 2031 were based on five-years business plan of Pavlodar refinery 2023-2027 (2021: 2022-2026 years), which assumes current management estimates on potential changes in operating and capital costs. As at December 31, 2022 and 2021 the recoverable amount of goodwill, which was determined based on value-in-use, exceeded its book value, as such no impairment of Pavlodar refinery goodwill was recognized.

***Sensitivity to changes in assumptions***

Results of the assessment of recoverable amount of Pavlodar refinery goodwill are sensitive to changes in key assumptions, in particular, assumptions related to changes in discount rate and target EBITDA in terminal period. Increase in discount rates by 1.0% to 13.86% (2021: 13.06%) and decrease of target EBITDA in terminal period by 1% would not result decrease of the recoverable amount of CGU Pavlodar refinery to its carrying value.

***Other CGUs***

Revision to the Group's commodity price and other assumptions have not resulted in impairment charges in any other CGUs of the *Refining and trading of crude oil and refined products segment*.

**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (continued)**

---

**4. SIGNIFICANT ACCOUNTING ESTIMATES AND JUDGEMENTS (continued)****Assets retirement obligations***Oil and gas production facilities*

Under the terms of certain subsoil use contracts, legislation and regulations the Group has legal obligations to dismantle and remove tangible assets and restore the land at each production site. Specifically, the Group’s obligation relates to the ongoing closure of all non-producing wells and final closure activities such as removal of pipes, buildings and recultivation of the contract territories, and also obligations to dismantle and remove tangible assets and restore territory at each production site. Since the subsoil use contract terms cannot be extended at the discretion of the Group, the settlement date of the final closure obligations has been assumed to be the end of each subsoil use contract period. The extent of the Group’s obligations to finance the abandonment of wells and for final closure costs depends on the terms of the respective subsoil use contracts and current legislation.

Where neither subsoil use contracts nor legislation include an unambiguous obligation to undertake or finance such final abandonment and closure costs at the end of the subsoil use contract term, no liability has been recognized. There is some uncertainty and significant judgment involved in making such a determination. Management’s assessment of the presence or absence of such obligations could change with shifts in policies and practices of the Government or in the local industry practice.

The Group calculates asset retirement obligations separately for each contract. The amount of the obligation is the present value of the estimated expenditures expected to be required to settle the obligation adjusted for expected inflation and discounted using average long-term risk-free interest rates for emerging market sovereign debt adjusted for risks specific to the Kazakhstan market.

At each reporting date the Group reviews site restoration provisions, and adjusts them to reflect the current best estimate in accordance with IFRIC 1 *Changes in Existing Decommissioning, Restoration and Similar Liabilities*.

Estimating the future closure costs involves significant estimates and judgments by management. Most of these obligations are many years in the future and, in addition to ambiguities in the legal requirements, the Group’s estimate can be affected by changes in asset removal technologies, costs and industry practice. The Group estimates future well abandonment cost using current year prices and the average long-term inflation rate.

The long-term inflation and discount rates used to determine the obligation in the consolidated statement of financial position across the Group entities at December 31, 2022 were in the range from 2.09% to 15.05% and from 6.42% to 12.38%, respectively (December 31, 2021: from 2.23% to 8.10% and from 3.80% to 10.25%, respectively). As at December 31, 2022 the carrying amounts of the Group’s asset retirement obligations relating to decommissioning of oil and gas facilities were 88,163 million tenge (December 31, 2021: 174,913 million tenge) (*Note 29*).

*Major oil and gas pipelines*

According to the Law of the RK *On Major Pipelines* which was made effective on July 4, 2012 KazTransOil JSC (further KTO) has legal obligation to decommission its major oil pipelines at the end of their operating life and to restore the land to its original condition. Asset retirement obligation is calculated based on estimate of the work to decommission and rehabilitate. As at December 31, 2022, the carrying values of the Group’s asset retirement obligations relating to decommissioning of pipelines and land were 40,665 million tenge (December 31, 2021: 34,547 million tenge) (*Note 29*).

**Environmental remediation obligations provision**

The enforcement of environmental regulation in Kazakhstan is evolving and subject to ongoing changes. In accordance with the amendments to the Environmental Code of the RK effective from 1 July 2021, the management believes that there are possible liabilities that may have an impact on the Group’s financial position and results of operations.

At the date of issuance of the consolidated financial statements the Group analyses the changes and, accordingly, cannot reliably estimate the amount of additional potential liabilities related to the asset retirement and land recultivation, except for those reflected in these consolidated financial statements.

**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (continued)**

---

**4. SIGNIFICANT ACCOUNTING ESTIMATES AND JUDGEMENTS (continued)****Environmental remediation obligations provision (continued)**

The Group continues to monitor this matter and will adjust for new facts and circumstances, and any clarification provided by the State body in regards to the application of the Environmental Code of the RK.

The Group also makes judgments and estimates in establishing provisions for environmental remediation obligations. Environmental expenditures are capitalized or expensed depending upon their future economic benefit. Expenditures that relate to an existing condition caused by past operations and do not have a future economic benefit are expensed.

Liabilities are determined based on current information about costs and expected plans for remediation and are recorded on discounted basis. The Group’s environmental remediation provision represents management best estimate based on an independent assessment of the anticipated expenditure necessary for the Group to remain in compliance with the current regulatory regime in Kazakhstan and Europe. The Group has classified this obligation as non-current except for the portion of costs, included in the annual budget for 2023. For environmental remediation provisions, actual costs can differ from estimates because of changes in laws and regulations, public expectations, discovery and analysis of site conditions and changes in clean-up technology. Movements in the provision for environmental remediation obligations are disclosed in *Note 29*.

**Employee benefits**

The cost of defined long-term employee benefits payable before, on and after retirement and the present value of the obligation are determined using actuarial valuations. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, future salary increases, mortality rates and future pension increases.

Due to the complexity of the valuation, the underlying assumptions and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date.

**Taxation**

In assessing tax risks, management considers to be probable obligations the known areas of tax positions which the Group would not appeal or does not believe it could successfully appeal, if assessed by tax authorities. Such determinations inherently involve significant judgment and are subject to change as a result of changes in tax laws and regulations, amendments to the taxation terms of the Group’s subsoil use contracts, the determination of expected outcomes from pending tax proceedings and current outcome of ongoing compliance audits by tax authorities. The provision for tax risks other than on income tax are disclosed under provisions for taxes in *Note 29*. Contingent liabilities for tax risks other than on income tax are disclosed in *Note 35*. Provisions and contingent liabilities related to income tax are included or disclosed as income tax liabilities or contingencies (see *Note 32* and *35* for further details).

**Useful lives of property, plant and equipment**

The Group assesses the remaining useful lives of items of property, plant and equipment at least at each financial year-end and, if expectations differ from previous estimates, the changes are accounted for prospectively as a change in an accounting estimate in accordance with IAS 8 *Accounting Policies, Changes in Accounting Estimates and Errors*.

**Fair value of financial instruments**

Where the fair value of financial assets and financial liabilities recorded in the consolidated statement of financial position cannot be derived from active markets, they are determined using valuation techniques including the discounted cash flows model. The inputs to these models are taken from observable markets where possible, but where this is not feasible, a degree of judgment is required in establishing fair values. The judgments include considerations of inputs such as liquidity risk, credit risk and volatility. Changes in assumptions about these factors could affect the reported fair value of financial instruments presented in the consolidated financial statements. Further details are disclosed in *Note 34*.

**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (continued)****5. LOSS OF CONTROL****PSA LLP (further PSA)**

On December 20, 2022, the Company transferred to Corporate fund Samruk-Kazyna Trust 100% interest in PSA for 1 tenge. As a result, the Group lost control over PSA.

The results of PSA for the period ended December 20, 2022 are presented below:

<i>In millions of tenge</i>	<b>January 1, 2022 – December 20, 2022</b>
General and administrative expenses	(8,950)
Finance costs	(58)
Net foreign exchange loss	(39)
<b>Loss for the period</b>	<b>(9,047)</b>

The net cash flows incurred by PSA period ended December 20, 2022 are as follows:

<i>In millions of tenge</i>	<b>January 1, 2022 – December 20, 2022</b>
Operating	(7,702)
Investing	(28)
Financing	11,871
<b>Net increase in cash and cash equivalents</b>	<b>4,108</b>

At the date of loss of control net assets of PSA were as follows:

<i>In millions of tenge</i>	<b>Net assets at the date of loss of control</b>
<b>Assets</b>	
Property, plant and equipment	36
Intangible assets	64
Right-of-use assets	255
VAT receivable	12
Other current assets	109
Cash and cash equivalents	4,137
<b>Total assets</b>	<b>4,613</b>
<b>Liabilities</b>	
Lease liabilities	286
Trade accounts payable	1,736
Other current liabilities	709
<b>Total liabilities</b>	<b>2,731</b>
<b>Net assets directly associated with disposal group</b>	<b>1,882</b>

Since the transfer of PSA was carried out pursuant to the instructions of Samruk-Kazyna, the difference between the sale price and the carrying amount of net assets of PSA at the date of loss of control was recorded as transactions with Samruk-Kazyna and presented in the line «Other distributions» in consolidated statement of changes in equity.

**KazTransGas JSC (further KTG)**

On March 11, 2021, the Company and Samruk-Kazyna entered into a trust management agreement with respect to 100% common shares of KTG. On November 9, 2021, the Company transferred to Samruk-Kazyna 100% shares of KTG for 1 tenge and the trust management agreement was terminated.

The transaction was preceded by fulfilment of a number of legal and financial conditions, including approvals from KMG lenders and relevant government agencies. The last condition was fulfilled on November 8, 2021. Starting from November 8, 2021, KTG was classified as a discontinued operation.

**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (continued)****5. LOSS OF CONTROL (continued)*****KazTransGas JSC (further KTG) (continued)***

The Company’s obligation on the financial guarantee of the Company and KTG under syndicated loan of Beineu-Shymkent Gas Pipeline LLP, the joint venture of KTG, was transferred to KTG (*Note 30*).

The business of KTG represented the entirety of the Group’s *Gas trading and transportation* segment until November 8, 2021. With KTG being disposed, the *Gas trading and transportation* segment is no longer presented in the segment note.

The results of KTG for the period ended November 8, 2021 are presented below:

<i>In millions of tenge</i>	<b>January 1, 2021 – November 8, 2021</b>
Revenue	708,110
Share in profit of joint ventures, net	275,100
Finance income	19,750
Other operating income	18,288
<b>Total revenue and other income from discontinued operations</b>	<b>1,021,248</b>
Cost of purchased gas and other materials	(158,438)
Production expenses	(66,266)
Taxes other than income tax	(12,645)
Depreciation, depletion and amortization	(63,502)
Transportation and selling expenses	(248,832)
General and administrative expenses	(18,420)
Finance costs	(36,330)
Net foreign exchange loss	(4,423)
Other expenses	(4,399)
<b>Profit before income tax from discontinued operations</b>	<b>407,993</b>
Income tax expenses	(55,515)
<b>Profit after income tax for the period from discontinued operations</b>	<b>352,478</b>

The net cash flows incurred by KTG period ended November 8, 2021 are as follows:

<i>In millions of tenge</i>	<b>January 1, 2021 – November 8, 2021</b>
Operating	184,675
Investing	(8,689)
Financing	(44,270)
<b>Net increase in cash and cash equivalents</b>	<b>134,138</b>

**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (continued)****5. LOSS OF CONTROL (continued)***KazTransGas JSC (further KTG) (continued)*

At the date of loss of control net assets of KTG were as follows:

<i>In millions of tenge</i>	<b>As at November 8, 2021</b>
<b>Assets</b>	
Property, plant and equipment	968,467
Investments in joint ventures	662,208
Loans due from related parties	176,019
VAT receivable	94,439
Inventories	41,834
Trade accounts receivable	127,567
Other non-current assets	95,088
Other current assets	77,582
Cash and cash equivalents	380,438
<b>Assets classified as held for sale</b>	<b>2,623,642</b>
<b>Liabilities</b>	
Borrowings	490,813
Provisions	119,902
Trade accounts payable	132,708
Other non-current liabilities	25,157
Other current liabilities	32,694
Deferred income tax liabilities	72,909
<b>Liabilities directly associated with assets classified as held for sale</b>	<b>874,183</b>
<b>Net assets directly associated with disposal group</b>	<b>1,749,459</b>

Other non-current liabilities of KTG as of the date of loss of control were adjusted for the Company’s obligation on the financial guarantee for 6,445 million tenge.

Since the transfer of KTG was carried out pursuant to the order of the President of the RK and the decision of the Samruk-Kazyna, the difference between the sale price and the carrying amount of net assets of KTG at the date of loss of control was recorded as transactions with Samruk-Kazyna.

**6. ACQUISITIONS UNDER COMMON CONTROL****Acquisition of joint venture under common control***Kazakhstan Petrochemical Industries Inc. LLP (further KPI)*

On June 13, 2022, Samruk-Kazyna transferred 49.50% of the shares KPI to the Company. The cost of the acquisition was 91,175 million tenge and was paid by setting off a part of the amount against the provided financial aid from the Company to Samruk- Kazyna (Note 24). KPI is engaged in the implementation of the investment project “Construction of the first integrated petrochemical complex in Atyrau region”.

49.50% interest in KPI was accounted for as an acquisition of the joint venture from the parties under common control and accounted for under the pooling of interest method based on its carrying value. Samruk-Kazyna Ondeu LLP (further SKO), subsidiary of Samruk-Kazyna, and the Company have joint control over the KPI where decisions about the relevant activities of KPI require unanimous consent.

The difference between the consideration paid and carrying value of identifiable assets and liabilities of KPI at the date of acquisition was recognized as distribution to Samruk-Kazyna and presented in the line «*Acquisition of joint ventures*» in consolidated statement of changes in equity in the amount of 74,743 million tenge.

**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (continued)****6. ACQUISITIONS UNDER COMMON CONTROL (continued)****Acquisition of joint venture under common control (continued)***Kazakhstan Petrochemical Industries Inc. LLP (further KPI) (continued)*

The following table illustrates the carrying value of KPI assets and liabilities as at the date of the acquisition (based on Predecessor’s accounting books):

*In millions of tenge*

Non-current assets	898,524
Current assets	81,276
Non-current liabilities	(868,850)
Current liabilities	(77,754)
<b>Net assets</b>	<b>33,196</b>
Share of ownership	49.5%
<b>The Group’s share in net assets</b>	<b>16,432</b>
Purchase consideration transferred	91,175
<b>Difference between consideration and carrying value of the investment in joint venture recognized in equity</b>	<b>74,743</b>

**Acquisition of subsidiary under common control***KMG Kashagan B.V. (further Kashagan)*

On October 16, 2015, Coöperatieve KazMunaiGaz U.A. (further Cooperative), a subsidiary of the Company, sold 50% of its shares in Kashagan to Samruk-Kazyna with a right to buy back all or part of the shares (further Option) effective from January 1, 2018 to December 31, 2020 which was later extended to December 31, 2022.

In 2017, the Amsterdam Court imposed certain restrictions on 50% of shares in Kashagan owned by Samruk-Kazyna (further Restrictions). During the Restrictions period, these shares of Kashagan cannot be sold, transferred or pledge. As of December 31, 2021 the Restrictions remained in force.

On June 14, 2022 the Amsterdam Court lifted the Restrictions.

On September 14, 2022 the Cooperative and Samruk-Kazyna signed an Amendment to Share Option Agreement and Exercise of Option (further Amendment Agreement), which set the exercise price of the Option in the amount of 3,781.7 million US dollars (equivalent to 1,777,076 million tenge presented in statement of changes in equity).

Amendment Agreement and Agreement on Transfer of Debt and Set-Off dated 14 September 2022 between the Company, Samruk-Kazyna and Cooperative determine the following way for consideration payment:

- The amount of 2,476.3 million US dollars to be converted at the agreed exchange rate of 475.00 tenge to 1 US dollar for subsequently setting off a part of the amount against the provided financial aid from the Company to Samruk- Kazyna for 424,587 million tenge, and paying the rest of the amount by the Company from the proceeds of the sale of bonds for 751,631 million tenge (*Notes 27 and 33*);
- The amount of 566.7 million US dollars to be paid with 10 business days after the completion of the deal (paid as at December 31, 2022; equivalent to 271,032 million tenge per exchange rate at the date of payment);
- The amount of 375.1 million US dollars to be paid by December 31, 2022 (paid as at December 31, 2022; equivalent to 175,654 million tenge per exchange rate at the date of payment) and the amount of 363.6 million US dollars to be paid by 30 June 2023 (as at December 31, 2022: 168,239 million tenge) (*Notes 30 and 33*).

**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (continued)**

---

**6. ACQUISITIONS UNDER COMMON CONTROL (continued)****Acquisition of subsidiary under common control (continued)***KMG Kashagan B.V. (further Kashagan) (continued)*

On September 15, 2022 the Group fulfilled conditions of the Amendment Agreement, completing the transaction, exercised the Option and 50% of Kashagan shares were re-registered in favor of Cooperative.

As a result of exercising the Option, the Group has control over Kashagan and recognized Kashagan as a subsidiary. The acquisition accounted for as an acquisition of the subsidiary from the parties under common control and accounted for under the pooling of interest method based on the carrying value of assets and liabilities of Kashagan based on Predecessor’s accounting books. Comparative consolidated financial position as at December 31, 2021, consolidated statement of comprehensive income for the year ended December 31, 2021 and consolidated statement of cash flows for the year ended December 31, 2021, as well as the related notes to the consolidated financial statements for the year ended December 31, 2021, were restated, as if the acquisition has occurred from the beginning of the earliest period presented. The difference between the consideration and net assets of Kashagan was recognized in equity.

The business of KLPE represented in the Group’s *other* segment in these consolidated financial statements.

**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (continued)****7. ACQUISITION OF JOINT VENTURE*****PETROSUN LLP (further Petrosun)***

On July 1, 2022, in accordance with the minutes of the meeting of the Commission under the chairmanship of the Prime-Minister of RK for the demonopolization of the economy, namely the market of fuels and lubricants, the Company acquired 49% interest in Petrosun, that specializes in the sale of liquefied petroleum gas and petroleum products. The acquisition price was 1 tenge. The difference between the consideration paid and the fair value of identifiable assets and liabilities of Petrosun at the date of acquisition was recognized as a contribution from Samruk-Kazyna based on instruction in minutes above and presented in the line «*Acquisition of joint ventures*» in consolidated statement of changes in equity in the amount of 10,989 million tenge (Note 26).

49% interest in Petrosun is recognized as a joint venture and accounts for using the equity method in accordance with IAS 28 Investments in Associates and Joint Ventures. CNPC INTERNATIONAL IN KAZAKHSTAN LLP (the second owner of Petrosun) and the Company have joint control over Petrosun where decisions about the relevant activities of Petrosun require the unanimous consent.

These consolidated financial statements include share in Petrosun's profits for the six months since the acquisition date in the amount of 23,184 million tenge (Note 9).

The fair values of the identifiable assets and liabilities of Petrosun as at the date of acquisition are as presented below:

*In millions of tenge*

Non-current assets		35

**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (continued)****15. IMPAIRMENT OF PROPERTY, PLANT AND EQUIPMENT, INTANGIBLE ASSETS, ASSETS CLASSIFIED AS HELD FOR SALE AND EXPLORATION EXPENSES (continued)**

Impairment was recognized for the following CGUs:

<i>In millions of tenge</i>	<b>2022</b>	2021 (restated)
Barys, Berkut, Beket Ata and Turkistan sea vessels	<b>1,801</b>	4,453
CGUs of KMGI	–	8,298
Others	<b>(1,093)</b>	7,973
	<b>708</b>	20,724

**Sea vessels**

The recoverable amount of the sea vessels of KazMorTransFlot LLP was determined on the basis of value-in-use method. Value-in-use was assessed as the present value of the future cash flows expected to be derived from the sea vessels until the end of the existing and probable contracts at the discount rate of 14.00% (2021: 10.70%). As a result of the test, the Group recognized an impairment loss of 1,801 million tenge for the year ended December 31, 2022, in regards of Barys, Turkistan and Beket Ata sea vessels (2021: 4,453 million tenge on Barys and Berkut sea vessels).

**CGUs of KMGI**

On July 2, 2021, an incident occurred at the Petromidia Refinery (further Petromidia), subsidiary of KMGI, that led to fire and resulted in temporarily interruption of the production until damaged facilities are repaired. KMGI conducted assessments to estimate the incident consequences and recognized impairment of property, plant and equipment of Petromidia for 1,615 million tenge.

For the year ended December 31, 2021, based on the results of the property, plant and equipment physical inspection, KMGI recognized an impairment loss of property, plant and equipment for 6,683 million tenge.

Based on the impairment analysis performed in 2022, no impairment of KMGI CGUs was identified.

**Exploration expenses**

For the year ended December 31, 2022, the Group has recognized impairment of exploration and evaluation assets in the amount of 8,895 million tenge of Southern Urikhtau project, for which the contract territory was decided to be relinquished to the Government by the Group.

Also, the Group recognized impairment of exploration and evaluation assets in the amount of 3,172 million tenge of Isatay project for which the Company and the second partner, Isatay Operating Company LLP, decided to exit the project and relinquish the contract territory to the Government.

For the year ended December 31, 2021, the Group has recognized exploration expenses in the amount of 59,283 million tenge of Zhambyl project, the subsoil use contract for which was terminated and the contract territory was relinquished to the Government. Also, the Group partially reduced the contract area at Taisoigan site and, accordingly, wrote off exploration and evaluation expenses in the amount of 19,800 million tenge.

**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (continued)**

---

**17. PROPERTY, PLANT AND EQUIPMENT (continued)****Additions**

In 2022, additions were mainly attributable to development drilling at Ozenmunaigas JSC, Embamunaigas JSC, subsidiaries of KMG EP, KMG Karachaganak LLP and Kashagan for the total amount of 280,470 million tenge, overhauls at Rompetrol Rafinare, subsidiary of KMGI for 75,792 million tenge, replacement of the section of the pipelines "Uzen-Atyrau-Samara" and "Astrakhan-Mangyshlak" for a total of 39,538 million tenge in KazTransOil JSC.

**Other**

For the year ended December 31, 2022, the Group capitalized to the carrying amount of property, plant and equipment borrowing costs related to construction of 1,304 million tenge at the average interest rate of 4.40% (for the year ended December 31, 2021: 32 million tenge at the average interest rate of 2.10%) (*Note 27*).

As at December 31, 2022, the cost of fully depreciated but still in use property, plant and equipment was 384,815 million tenge (as at December 31, 2021: 329,355 million tenge).

As at December 31, 2022, property, plant and equipment with the net book value of 778,757 million tenge were mainly pledged as collateral to secure borrowings of the Group (as at December 31, 2021: 837,744 million tenge).

Capital commitments are disclosed in *Note 35*.

Par value of 592 tenge	1
Par value of 500 tenge	458,450,766
<b>Share capital (thousands of tenge)</b>	<b>916,540,545</b>

As at December 31, 2022 and 2021, the Company had only one class of issued shares. As at December 31, 2022 and 2021, common shares in the number of 239,440,103 were authorized, but not issued. In 2022, there was no issuance of any ordinary share.

**Dividends**

In 2022, based on the decision of Samruk-Kazyna and NB RK, the Company declared and paid off dividends for 2021 of 327.80 tenge per common share in the total of 199,997 million tenge (2021: declared and paid-off dividends for 2020 of 81.95 tenge per common share in the total of 49,999 million tenge).

In 2022, the Group declared and paid-off dividends to the non-controlling interest holders of KTO, KMGI and KMG EP in the total amount of 2,296 million tenge and 1,975 million tenge, respectively (2021: 6,192 million tenge and 5,756 million tenge, respectively).

**Transactions with Samruk-Kazyna**

In 2022, the Company provided Samruk-Kazyna additional interest-free financial aid tranches of 23,605 million tenge (2021: 43,151 million tenge) under a long-term financial aid agreement signed on December 25, 2015, with a current maturity in 2022 (*Note 33*). In 2022, the difference between the fair value and nominal amount of the additional tranches of 1,906 million tenge (2021: 5,222 million tenge) was recognized as transactions with Samruk-Kazyna in the consolidated statement of changes in equity.

In September 2022, the Company placed bonds for 751,631 million tenge at a coupon interest rate of 3.00% per annum and due in 2035. The coupon rate is below market rate. Samruk-Kazyna purchased the bonds. The difference between the fair value and nominal amount of bonds of 380,477 million tenge was recognized as transactions with Samruk-Kazyna in the consolidated statement of changes in equity (*Notes 27 and 33*).

In September 2022, within the exercising of the Option the Group is due to Samruk-Kazyna in the amount of 738.8 million US dollars (equivalent to 350.321 million tenge per exchange rate at the date of recognition). The payable was recognized at fair value upon initial recognition. The difference between the fair value and nominal amount of the payable of 7,426 million tenge was recognized as transactions with Samruk-Kazyna in the consolidated statement of changes in equity (*Notes 6 and 33*).

**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (continued)****26. EQUITY (continued)****Distributions to Samruk-Kazyna**

In 2022, in accordance with the Government decree on the construction of a medical center in Zhana-ozen town and housing for the residents, living in Zhana-ozen town, the Group accrued liabilities and paid for 10,199 million tenge and 2,398 million tenge, respectively, (2021: 393 million tenge and 842 million tenge, respectively).

In 2021, the Company reversed its distribution to Samruk-Kazyna by 308 million tenge and received reimbursement of 308 million tenge from contractor due to savings, which was recognized in prior years under the construction for social facilities in Turkestan city.

In July 2022, based on the decision of Samruk-Kazyna and Cooperative, Kashagan declared and paid-off dividends in the amount of 1.133,4 million U.S. dollars (equivalent to 529,789 million tenge). Due to the recognition of the acquisition of Kashagan under common control the Group recognized dividends distributed to the former shareholder of Kashagan as Distributions to Samruk-Kazyna in the amount of 566,7 million U.S. dollars (equivalent to 263.671 million tenge) (*Note 6*).

**Contributions from the related party**

In 2022, SKO, a previous shareholder of KLPE, made a contribution to the share capital of KLPE for 3,742 million tenge (2021: 16,396 million tenge). Due to the acquisition of KLPE under common control (*Note 6*) the Group recognized this as contribution from the related party in the consolidated statement of changes in equity.

**Acquisitions of joint ventures**

The difference between the consideration paid for acquisition of 49.9% ownership interest in Silleno from SKO in the amount of 816 million tenge and the carrying value of investment in Silleno in the amount of 120 million tenge was recognized as contribution from Samruk-Kazyna and presented in the line «*Acquisition of joint ventures*» in consolidated statement of changes in equity.

The difference between the consideration paid for acquisition of 49% interest in Petrosun for 1 tenge and the fair value of identifiable assets and liabilities of Petrosun at the date of acquisition in the amount of 10,989 million tenge was recognized as a contribution from Samruk-Kazyna and presented in the line «*Acquisition of joint ventures*» in consolidated statement of changes in equity in the amount of 10,989 million tenge (*Note 7*).

**Book value per share**

In accordance with the decision of KASE dated October 4, 2010 financial statements shall disclose book value per share (ordinary and preferred) as of the reporting date, calculated in accordance with the KASE rules.

**27. BORROWINGS (continued)**

In January 2022, Atyrau Refinery LLP (further Atyrau Refinery) made early full repayment of the loan from Eximbank for 604 million US dollars (equivalent to 259,459 million tenge), including accrued interest. For the repayment was used the cash reserved in November 2021 (*Note 23*).

In 2012, Atyrau Refinery paid an insurance premium to China Export & Credit Insurance Corporation in the amount of 85 million USD (equivalent to 12,820 million tenge) under a loan Agreement with Eximbank. In connection with the early repayment of the loan, China Export & Credit Insurance Corporation returned the part of the insurance premium in December 2022 in the amount of 16 million USD (equivalent to 7,370 million tenge).

In 2022, KTO received a long-term loan from Halyk Bank for 29,593 million tenge with the key rate of the NB RK + 2.50% and maturity of 4 years to finance the first stage of the project "Reconstruction and expansion of the main water pipeline "Astrakhan-Mangyshlak".

In 2022, KMGI partially redeemed Syndicated loan (Unicredit Tiriak Bank, ING Bank, BCR, Raiffeisen Bank) used to finance its working capital for the total amount of 191.47 million US dollars (equivalent to 88,258 million tenge).

In 2022, KMGI received a long-term syndicated loan (BCR, Raiffeisen Bank, OTP, Alpha, Garanti) to finance the construction of the cogeneration power plant for 42 million euro (equivalent to 20,196 million tenge) at the rate of 6M Euribor + 3.00% per annum and maturity of 7 years.

In 2022, KMGI received a loan from NATIXIS to finance working capital for 39 million USD (equivalent to 18,097 million tenge) at the rate of COF (4.65%) + 2.00% per annum and maturity in 2023.

In 2022, KMGI received a long-term loan from OTP Bank JSC to finance the extension and development of gas stations for 25 million USD (equivalent to 11,404 million tenge) at the rates of Robor 3M + 1.10% per annum and maturity of 8 years.

In 2022, KMGI received a long-term loan from Cargill bank to finance working capital for 25 million USD (equivalent to 23,047 million tenge) at the rates of SOFR 3M+2.98% per annum and maturity till the year 2024.

The increase in carrying value of the loan from VTB Bank (PJSC) denominated in Russian ruble during the twelve months ended December 31, 2022, is due to the effect of the foreign currency exchange rate for 26,206 million tenge.

In 2022, Atyrau Refinery made partial repayment of the loans from DBK for 60 million US dollars (equivalent to 27,550 million tenge), including accrued interest.

In 2022, KMGI received a loan from Credit Agricole to finance working capital for 17 million USD (equivalent to 7,833 million tenge) at the rates of COF (4.60%) + 2.00% per annum and maturity till the year 2023.

In 2021, Atyrau Refinery received a long-term loan from VTB Bank (PJSC) for 38,169 million Russian rubles (equivalent to 229,015 million tenge) at the rate of key rate of Central Bank of Russia + 2.25% per annum and maturity of 6 years for full early repayment of the loan from Eximbank in 2022.

In 2021, Atyrau Refinery partially repaid for 105 million US dollars (equivalent to 44,734 million tenge) including accrued interest, and received a short-term loan from Halyk bank under revolving credit facility for 100 million US dollars (equivalent to 42,813 million tenge) with 5% interest rate for full early repayment of the loan from Eximbank in 2022 and to finance working capital.

In 2021, Atyrau Refinery received a long-term loan from Halyk bank in the total amount of 109,855 million tenge with 11% interest rate and maturity of 4 years to refinance its existing loans from JBIC and DBK. The loan from Halyk bank was partially repaid for 22,827 million tenge, including accrued interest.

In 2021, Atyrau Refinery made full early repayment of the loan from JBIC for 155 million US dollars (equivalent to 67,392 million tenge), including accrued interest.

In 2021, Atyrau Refinery made full and partial repayment of the loans from DBK for 142 million US dollars (equivalent to 59,507 million tenge), including accrued interest, and 29,409 million tenge, including accrued interest.

**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (continued)**

---

**27. BORROWINGS (continued)**

In 2021 KMGI received short-term and long-term loans to finance working capital from Cargill at the rate of 3M LIBOR + 2.60% and 3M LIBOR + 2.50%, respectively, for 50 million US dollars each (equivalent to 20,997 million tenge).

In 2021, KMGI partially repaid a short-term loan from ING Bank NV for 29 million US dollars (equivalent to 12,632 million tenge), including accrued interest.

In 2021, KMGI made partial repayment of its Syndicated loan (Unicredit Tiriatic Bank, ING Bank, BCR, Raiffeisen Bank) for 97 million US dollars (equivalent to 41,447 million tenge).

\* The repayment of the interest is classified in the consolidated statement of cash flows as operating cash flows.

**Covenants**

The Group is required to comply with the financial and non-financial covenants under the terms of loan agreements. As of December 31, 2022 and 2021, the Group complied with all financial and non-financial covenants.

**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (continued)****27. BORROWINGS (continued)****Hedge of net investment in the foreign operations**

As at December 31, 2022, certain borrowings denominated in foreign currency were designated as hedge instrument for the net investment in the foreign operations. These borrowings are being used to hedge the Group’s exposure to the US dollar foreign exchange risk on these investments. In 2022, a loss of 187,441 million tenge (2021: loss of 66,967 million tenge) on the translation of these borrowings were transferred to other comprehensive income and offset against translation gains of the net investments in foreign operations.

There is an economic relationship between the hedged item and the hedging instrument as the net investment creates a translation risk that will match the foreign exchange risk on the US Dollars borrowings. The Group has established a hedge ratio of 1:1 as the underlying risk of the hedging instrument is identical to the hedged risk component. The hedge ineffectiveness will arise when the amount of the investment in the foreign subsidiary becomes lower than the amount of the fixed rate borrowings. As at December 31, 2022 and 2021, there was no ineffective portion of the hedge.

**28. LEASE LIABILITIES**

Future minimum lease payments under leases together with the present value of the net minimum lease payments comprised the following:

<i>In millions of tenge</i>	<b>Minimum lease payments</b>		<b>Present value of minimum lease payments</b>	
	<b>December 31, 2022</b>	December 31, 2021 (restated)	<b>December 31, 2022</b>	December 31, 2021 (restated)

Other currency	<b>7,132</b>	8,804
<b>Total</b>	<b>564,906</b>	558,266

As at December 31, 2022 and 2021, trade accounts payable and other financial liabilities were not interest bearing.

**Derivative financial instruments**

The Group uses different commodity derivatives as a part of price risk management in trading of crude oil and petroleum products.

Statement of financial position:

	<b>December 31, 2022</b>	December 31, 2021
Derivative financial asset (in other financial assets)	<b>681</b>	10,965
Derivative financial liability (in other financial liabilities)	<b>(1,598)</b>	(2,127)
<b>Derivative financial (liability)/asset, net</b>	<b>(917)</b>	8,838

**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (continued)****30. TRADE ACCOUNTS PAYABLE AND OTHER FINANCIAL AND NON-FINANCIAL LIABILITIES (continued)****Derivative financial instruments (continued)**

Statement of comprehensive income:

	2022	2021
Realized losses from derivatives on petroleum products in production expenses (Note 11)	121,539	14,954

A movement in derivatives assets/(liabilities) is shown below:

	2022	2021
<b>On January 1</b>	<b>8,838</b>	(128)
Hedge Reserve	(11,872)	10,055
Inventory	1,524	(1,335)
Reversal of unrealized losses	-	130
Translation difference	593	116
<b>On December 31</b>	<b>(917)</b>	8,838

Derivative financial instruments are initially measured at fair value on the contract date, and are re-measured to fair value at subsequent reporting dates. Changes in the fair value of derivative financial instruments are recognized in profit or loss as they arise.

The Group has the following hedge transactions that qualify for fair value hedge:

Transaction	Hedged item	Risk hedged	Hedging instrument
Commodity purchase / sell at fixed price	Base operating stock (BOS) – meaning crude oil, feedstock, diesel, gasoline and jet Priced operational stock above or below BOS	Commodity price risk	Swap, Future, Purchase put / call option
Foreign exchange risk related to monetary item	Monetary item not in the functional currency of the Group	Change in foreign exchange rate	Swap, currency forward
Foreign exchange risk related to a firm commitment	Firm commitment not denominated in the functional currency of the Group	Change in foreign exchange rate	Swap, currency forward
Fair value risk related to fixed interest rates	Receivable or liability at fixed interest rate	Interest related fair value risk	Swap

The Group has the following hedge transactions that qualify for cash flow hedge:

Transaction	Hedged item	Risk hedged	Hedging instrument
Forecasted commodity purchase / sell	Forecasted refinery margin basket and forecasted Dated Brent differential	Commodity price risk	Swap, Future, Purchased put / call option
EUA certificates	Forecasted EUA certificates purchase	EUA certificate price risk	Futures

**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (continued)****31. OTHER TAXES PAYABLE**

<i>In millions of tenge</i>	<b>December 31, 2022</b>	December 31, 2021 (restated)
VAT	<b>49,969</b>	49,002

	<b>148,477</b>	137,055

**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (continued)****32. INCOME TAX EXPENSES**

As at December 31, 2022 income taxes prepaid of 36,167 million tenge (2021: 25,165 million tenge) are mainly represented by corporate income tax. As at December 31, 2022 income taxes payable of 66,648 million tenge (2021: 6,882 million tenge) are mainly represented by corporate income tax.

Income tax expense comprised the following for the years ended December 31:

<i>In millions of tenge</i>	<b>2022</b>	2021 (restated)
<b>Current income tax</b>		
Corporate income tax	<b>204,156</b>	116,562
Withholding tax on dividends and interest income	<b>49,120</b>	42,887
Excess profit tax	<b>1,673</b>	1,237
<b>Deferred income tax</b>		
Corporate income tax	<b>124,728</b>	125,606
Withholding tax on dividends	<b>113,331</b>	34,990
Excess profit tax	<b>239</b>	(34)
<b>Income tax expenses</b>	<b>493,247</b>	321,248

By Emergency Ordinance no. 186 issued December 28, 2022, a solidarity contribution was imposed on profits in the fossil fuel sector. The solidarity contribution is payable by companies operating in the crude oil, natural gas, coal, and refinery sectors on taxable profits of 2022 and 2023 exceeding 120% of the average taxable profit of the preceding four years, 2018 to 2021, at a rate of 60%. If the average taxable profit related to the period 2018-2021 is negative, for the purpose of calculating the solidarity contribution, it is considered that the average taxable profit is equal to zero. As of December 31, 2022, KMG I recognized income tax in the amount of 124.9 million US dollars (equivalent to 57,584 million tenge).

A reconciliation of income tax expenses applicable to profit before income tax at the statutory income tax rate (20% in 2022 and 2021) to income tax expenses was as follows for the years ended December 31:

<i>In millions of tenge</i>	<b>2022</b>	2021 (restated)
Profit before income tax from continuing operations	<b>1,810,566</b>	1,255,310
Profit before income tax from discontinued operations	-	407,993
Statutory tax rate	<b>20%</b>	20%
<b>Income tax expense on accounting profit</b>	<b>362,113</b>	332,661
Share in profit of joint ventures and associates	<b>(87,797)</b>	(69,812)
Other non-deductible expenses and non-taxable income	<b>112,047</b>	85,867
Effect of different corporate income tax rates	<b>91,215</b>	47,729
Excess profit tax	<b>1,912</b>	1,203
Change in unrecognized deferred tax assets	<b>13,757</b>	(20,885)
<b>Income tax expenses</b>	<b>493,247</b>	376,763
Income tax expenses attributable to continued operations	<b>493,247</b>	321,248
Income tax expenses attributable to discontinued operations	-	55,515
	<b>493,247</b>	376,763

**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (continued)****32. INCOME TAX EXPENSES (continued)**

Deferred tax balances, calculated by applying the statutory tax rates effective at the respective reporting dates to the temporary differences between the tax basis of assets and liabilities and the amounts reported in the consolidated financial statements, are comprised of the following at December 31:

<i>In millions of tenge</i>	2022					2021 (restated)				
	Corporate income tax	Excess profit tax	Withholding tax	Total	Recognized in profit and loss	Corporate income tax	Excess profit tax	Withholding tax	Total	Recognized in profit and loss

<b>Deferred tax expense</b>					<b>238,298</b>					<b>174,388</b>

**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (continued)****32. INCOME TAX EXPENSES (continued)**

Deferred corporate income tax and excess profit tax are determined with reference to individual subsoil use contracts. Deferred corporate income tax is also determined for activities outside of the scope of subsoil use contracts. A deferred tax asset is recognized only to the extent that it is probable that future taxable profits will be available against which the asset can be utilized. Deferred tax assets are reduced to the extent that it is no longer probable that the related tax benefit will be realized. Unrecognized deferred tax asset arising mainly from tax losses carry forward amounted to 574,955 million tenge as at December 31, 2022 (2021: 561,376 million tenge).

Tax losses carry forward as at December 31, 2022 and 2021 in the RK expire for tax purposes after ten years from the date they are incurred.

The movements in the deferred tax liability/(asset) were as follows:

<i>In millions of tenge</i>	2022				2021 (restated)			
	Corporate income tax	Excess profit tax	Withholding tax	Total	Corporate income tax	Excess profit tax	Withholding tax	Total

**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (continued)****33. RELATED PARTY DISCLOSURES****Terms and conditions of transactions with related parties**

Related party transactions were made on terms agreed between the parties that may not necessarily be at market rates, except for certain regulated services, which are provided based on the tariffs available to related and third parties. Outstanding balances at the year-end are mainly unsecured and interest free and settlement occurs in cash, except as indicated below. The Group recognizes allowances for ECL on amounts owed by related parties.

**Transactions balances**

The following table provides the balances of transactions with related parties as at December 31, 2022 and 2021:

<i>In millions of tenge</i>	<b>December 31,</b>	<b>Due from related parties</b>	<b>Due to related parties</b>	<b>Cash and deposits placed with related parties</b>	<b>Borrowings payable to related parties</b>
Samruk-Kazyna entities	<b>2022</b>	<b>38,476</b>	<b>168,368</b>	–	<b>413,691</b>
	2021	497,242	1,074	–	33,123
Associates	<b>2022</b>	<b>16,348</b>	<b>3,431</b>	–	–
	2021	12,249	3,009	–	–
Other state-controlled parties	<b>2022</b>	<b>72,003</b>	<b>666</b>	–	<b>121,177</b>
	2021	2,349	638	86,481	153,381
Joint ventures	<b>2022</b>	<b>167,284</b>	<b>187,172</b>	–	–
	2021	166,721	170,911	–	–

**Due from/to related parties***Samruk-Kazyna entities*

As at December 31, 2022 the financial aid provided to Samruk-Kazyna has been fully repaid by setting off against the payable for the acquisition of 49.50% ownership interest in KPI for 91,175 million tenge (*Note 6*), payable for the acquisition of 49.9% ownership interest in Silleno for 816 million tenge and the part of the payable for exercising the Option for 424,587 million tenge (*Note 6*).

As at December 31, 2022 payables due to Samruk-Kazyna were mainly represented by the payable for the exercised Option for 164,937 million tenge (*Notes 6 and 30*).

*Other state-controlled parties*

During 2022, the Company purchased short-term notes of the NB RK in the total amount of 87,000 million tenge, out of which notes in the amount of 17,000 million tenge were redeemed.

*Joint ventures*

As at December 31, 2022 due from joint ventures were mainly represented by the loans given to PKOP of 53,889 million tenge (December 31, 2021: 74,612 million tenge), UGL of 63,622 million tenge (December 31, 2021: 48,549 million tenge) (*Note 24*).

As at December 31, 2022 due to joint ventures were mainly represented by accounts payable for crude oil to TCO for 153,610 million tenge (December 31, 2021: 130,786 million tenge).

**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (continued)**

---

**33. RELATED PARTY DISCLOSURES (continued)****Borrowings payable to related parties***Samruk-Kazyna entities*

In September 2022, Samruk-Kazyna purchased the Company placed bonds for 751,631 million tenge. The difference between the fair value and nominal amount of bonds of 380,477 million tenge was recognized as transactions with Samruk-Kazyna in the consolidated statement of changes in equity (*Notes 26 and 27*).

*Other state-controlled parties*

As at December 31, 2022 the borrowings payable to related parties are represented by loans received from DBK by Atyrau refinery and Pavlodar refinery of 121,177 million tenge (December 31, 2021: 153,381 million tenge) (*Note 27*).

**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (continued)****33. RELATED PARTY DISCLOSURES (continued)****Transactions turnover**

The following table provides the total amount of transactions, which have been entered into with related parties during 2022 and 2021:

<i>In millions of tenge</i>		<b>Sales to related parties</b>	<b>Purchases from related parties</b>	<b>Interest earned from related parties</b>	<b>Interest incurred to related parties</b>
Samruk-Kazyna entities	<b>2022</b>	<b>50,371</b>	<b>11,768</b>	<b>44,760</b>	<b>15,618</b>
	2021	17,589	11,500	36,805	6,448
Associates	<b>2022</b>	<b>18,705</b>	<b>67,615</b>	<b>235</b>	<b>–</b>
	2021	53,754	33,549	–	–
Other state-controlled parties	<b>2022</b>	<b>9,631</b>	<b>18,228</b>	<b>577</b>	<b>15,501</b>
	2021	32,810	16,788	315	21,529
Joint ventures	<b>2022</b>	<b>305,922</b>	<b>2,119,070</b>	<b>12,469</b>	<b>4</b>
	2021	267,824	1,689,050	30,626	1,109

**Sales to related parties / purchases from related parties***Joint ventures*

In 2022, sales to joint ventures were mainly represented by transportation and cargo servicing provided to TCO for 20,204 million tenge (2021: 16,698 million tenge), transportation charges and oil servicing provided to MMG for 58,141 million tenge and for 116,223 million tenge, respectively (2021: 53,892 million tenge and 85,094 million tenge, respectively).

In 2021, purchases from joint ventures were mainly attributable to purchases of crude oil from TCO to perform the oil delivery customer contract for 1,976,760 million tenge (2021: 1,234,019 million tenge).

**Key management employee compensation**

Total compensation to key management personnel (members of the Boards of directors and Management boards of the Group) included in general and administrative expenses in the accompanying consolidated statement of the comprehensive income was equal to 7,351 million tenge and 7,953 million tenge for the years ended December 31, 2022 and 2021, respectively. Compensation to key management personnel mainly consists of contractual salary and performance bonus based on operating results.

**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (continued)****34. FINANCIAL RISK MANAGEMENT, OBJECTIVES AND POLICIES**

The Group’s principal financial instruments mainly consist of borrowings, loans given, financial guarantees, cash and cash equivalents, bank deposits as well as accounts receivable and accounts payable. The Group is exposed to interest rate risk, foreign currency risk and credit risk. The Group further monitors the market risk and liquidity risk arising from all financial instruments.

**Market risk**

The Group takes on exposure to market risks. Market risks arise from open positions in interest rate, currency, and securities, all of which are exposed to general and specific market movements. The Group manages market risk through periodic estimation of potential losses that could arise from adverse changes in market conditions and establishing appropriate margin and collateral requirements. The sensitivity analyses in the following sections relate to the position as of December 31, 2022 and 2021.

*Foreign currency risk*

As a result of significant borrowings and accounts payable denominated in the US dollars and rubles, the Group’s consolidated statement of financial position can be affected significantly by movement in the US dollar and ruble/ tenge exchange rates. The Group also has transactional currency exposures. Such exposure arises from revenues in the US dollars and rubles. The Group has a policy on managing its foreign currency risk in US dollar by matching US dollar and ruble denominated financial assets with US dollar and ruble denominated financial liabilities. The following table demonstrates the sensitivity to a reasonably possible change in the US dollar exchange rate, with all other variables held constant, of the Group’s profit before income tax (due to changes in the cash flows of monetary assets and liabilities). The sensitivity of possible changes in exchange rates for other currencies are not considered due to its insignificance to the consolidated financial results of Group’s operations.

<i>In millions of tenge</i>	<b>Increase/ (decrease) in tenge to US dollar exchange rate</b>	<b>Effect on profit before tax</b>
<b>2022</b>	<b>+21% (21%)</b>	<b>(404,338) 404,338</b>
<b>2021</b>	<b>+13% (11%)</b>	<b>(252,147) 193,960</b>

<i>In millions of tenge</i>	<b>Increase/ (decrease) in tenge to RUB exchange rate</b>	<b>Effect on profit before tax</b>
<b>2022</b>	<b>+22% (22%)</b>	<b>(54,044) 54,044</b>
<b>2021</b>	<b>+13% (13%)</b>	<b>(28,757) 28,757</b>

**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (continued)****34. FINANCIAL RISK MANAGEMENT, OBJECTIVES AND POLICIES (continued)***Interest rate risk*

Interest rate risk is the risk that the value of a financial instrument will fluctuate due to changes in market interest rates. The Group’s exposure to the risk of changes in market interest rates relates primarily to the Group’s long-term borrowings with floating interest rates. The Group’s policy is to manage its interest rate cost using a mix of fixed and variable rate borrowings.

The following table demonstrates the sensitivity to a reasonably possible change in interest rates, with all other variables held constant, of the Group’s profit before income tax (through the impact on floating rate borrowings). There is no significant impact on the Group’s equity.

<i>In millions of tenge</i>	<b>Increase/ decrease in basis points</b>	<b>Effect on profit before tax</b>
<b>2022</b>	<b>+2.45</b>	<b>(12,989)</b>
LIBOR	-2.45	12,989
<b>2021</b>		
LIBOR	+1.25	(8,817)
	-0.25	1,763

**Credit risk**

The Group trades only with recognized, creditworthy parties. It is the Group’s policy that all customers who wish to trade on credit terms are subject to credit verification procedures. In addition, receivable balances are monitored on an ongoing basis with the result that the Group’s exposure to bad debts is not significant. The maximum exposure is the carrying amount as disclosed in *Note 16*. There are no significant concentrations of credit risk within the Group.

With respect to credit risks arising on other financial assets of the Group, which comprise cash and cash equivalents, bank deposits, loans and receivables from related parties and other financial assets, the Group’s exposure to credit risks arises from default of the counterparty, with a maximum exposure equal to the carrying amount of these instruments.

The table below shows the risk profile of the Group’s cash and cash equivalents, short-term and long-term deposits held in banks as at 31 December 2022 and 2021 using the Fitch credit ratings, or in their absence, using their equivalent rates in S&P and Moody’s:

	<b>As at 31 December</b>	
	<b>2022</b>	<b>2021</b>
AA- to A+	<b>15%</b>	8%
A to A-	<b>41%</b>	34%
BBB+ to BBB-	<b>41%</b>	54%
BB+ to BB-	<b>2%</b>	1%
B+ to B-	<b>1%</b>	3%

**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (continued)****34. FINANCIAL RISK MANAGEMENT, OBJECTIVES AND POLICIES (continued)****Liquidity risk**

Liquidity risk is the risk that the Group will encounter difficulty in raising funds to meet commitments associated with its financial liabilities. Liquidity risk may result from an inability to sell a financial asset quickly at close to its fair value.

Liquidity requirements are monitored on a regular basis and management ensures that sufficient funds are available to meet any commitments as they arise.

The table below summarizes the maturity profile of the Group’s financial liabilities as at December 31, 2022 and 2021 based on contractual undiscounted payments.

<i>In millions of tenge</i>	Due less than one month	Due later than one month but not later than three months	Due later than three months but not later than one year	Due later than one year but not later than five years	Due after 5 years*	Total
<b>As at December 31, 2022</b>						
Borrowings*	45,216	2,028	506,344	1,868,569	4,977,920	7,400,077
Trade accounts payable	105,697	297,109	162,100	–	–	564,906
Lease liabilities	2,890	1,720	12,410	39,080	26,216	82,316
Other financial liabilities	56,278	19,598	366,088	18,544	–	460,508
	<b>210,081</b>	<b>320,455</b>	<b>1,046,942</b>	<b>1,926,193</b>	<b>5,004,136</b>	<b>8,507,807</b>
<b>As at December 31, 2021 (restated)</b>						
Borrowings*	268,383	92	379,336	1,432,280	4,283,944	6,364,035
Trade accounts payable	250,553	262,982	7,778	–	–	521,313
Financial guarantees**	–	4	312	1,252	–	1,568
Lease liabilities	1,896	1,229	6,595	12,763	22,879	45,362
Other financial liabilities	38,906	17,673	15,932	16,979	–	89,490
	<b>559,738</b>	<b>281,980</b>	<b>409,953</b>	<b>1,463,274</b>	<b>4,306,823</b>	<b>7,021,768</b>

\* The Group excludes from the maturity profile table the borrowings payable to project partners under the carry-in financing agreements, due to the uncertainty of maturity of these loans. As of December 31, 2022, the borrowings due to partners were 23,768 million tenge (December 31, 2021: 12,355 million tenge).

\*\* The Group includes financial guarantees to the maturity profile table, however, the cash outflow in relation to financial guarantees is subject to certain conditions. Financial guarantee is a contract that requires the issuer to make specified payments to reimburse the holder for a loss it incurs because of specified debtor fails to make payment when due in accordance with the original or modified terms of debt instrument. In 2022 and 2021 there was no significant instances of financial guarantees execution.

**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (continued)****34. FINANCIAL RISK MANAGEMENT, OBJECTIVES AND POLICIES (continued)****Capital management**

The primary objective of the Group’s capital management is to maximise the shareholder value. The Group manages its capital to ensure that Group will be able to continue as a going concern while maximising the return to stakeholders through the optimisation of the debt and equity balance.

The Company seeks to maintain a prudent capital structure to support its capital investment plans and maintain investment grade credit rating through the cycle. Maintaining sufficient financial flexibility is considered strategically important to mitigate industry cyclicality while also enabling the pursuit of organic and inorganic investment opportunities. The Company has a comprehensive and disciplined internal approval process for capital expenditures, new projects and debt incurrence.

For the purpose of the Group’s capital management, the capital structure of the Group consists of borrowings disclosed in *Note 27* less cash (*Note 25*) and short-term deposits (*Note 20*) and equity, comprising share capital, additional paid-in capital, other reserves and retained earnings as disclosed in *Note 26*.

The Group’s management regularly reviews the capital structure. As part of this review, management considers the cost of capital and the risks associated with each class of capital. Also to achieve this overall objective, the Group’s capital management, among other things, aims to ensure that it meets financial covenants attached to borrowings that define capital structure requirements. There have been no breaches of the financial covenants of any borrowing in the years ended December 31, 2022 and 2021 (*Note 27*).

<i>In millions of tenge</i>	<b>December 31, 2022</b>	December 31, 2021 (restated)
Borrowings	<b>4,143,334</b>	3,746,327
less: cash, cash equivalents and short-term bank deposits	<b>2,000,184</b>	1,762,603
<b>Net debt</b>	<b>2,143,150</b>	1,983,724
Equity	<b>9,873,450</b>	10,016,906
<b>Capital and net debt</b>	<b>12,016,600</b>	12,000,630

No changes were made in the overall strategy, objectives, policies or processes for managing capital during the years ended December 31, 2022 and 2021.

**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (continued)****34. FINANCIAL RISK MANAGEMENT, OBJECTIVES AND POLICIES (continued)****Fair values of financial instruments**

The carrying amount of the Group financial instruments as at December 31, 2022 and 2021 are reasonable approximation of their fair value, except for the financial instruments disclosed below:

<i>In millions of tenge</i>	December 31, 2022					December 31, 2021 (restated)				
	Carrying amount	Fair value	Fair value by level of assessment			Carrying amount	Fair value	Fair value by level of assessment		
			Level 1	Level 2	Level 3			Level 1	Level 2	Level 3
Bonds receivable from Samruk-Kazyna	19,595	20,138	-	20,138	-	18,373	16,925	-	16,925	-
NB RK notes	70,192	70,192	-	70,192	-	-	-	-	-	-
Loans given to related parties at amortized cost, lease receivables from joint venture	29,254	29,242	-	-	29,242	474,875	472,528	-	448,658	23,870
Fixed interest rate borrowings	3,584,422	3,156,446	2,476,894	679,552	-	3,041,001	3,556,705	3,210,632	346,073	-
Floating interest rate borrowings	558,912	558,912	-	558,912	-	705,326	755,347	-	755,347	-

The fair value of bonds receivable from the Samruk-Kazyna and other debt instruments have been calculated by discounting the expected future cash flows at market interest rates.

All financial instruments for which fair value is recognized or disclosed are categorized within the fair value hierarchy, based on the lowest level input that is significant to the fair value measurement as a whole, as follows:

- Level 1 – quoted (unadjusted) market prices in active markets for identical assets or liabilities;
- Level 2 – valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable;
- Level 3 – valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

There were no transfers between Level 1 and Level 2 during the reporting period, and no transfers into or out of Level 3 category.

For assets and liabilities that are recognized at fair value on a recurring basis, the Group determines whether transfers have occurred between levels in the hierarchy by re-assessing categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period. There were no changes in the Group’s valuation processes, valuation techniques, and types of inputs used in the fair value measurements during the year.

**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (continued)****34. FINANCIAL RISK MANAGEMENT, OBJECTIVES AND POLICIES (continued)****Fair values of financial instruments (continued)**

The significant unobservable inputs used in the fair value measurements categorized within Level 3 of the fair value hierarchy are shown below:

	Valuation technique	Significant unobservable inputs	Range as of December 31,	
			2022	2021
Loans given to related parties at amortized cost, lease receivables from joint venture	Discounted cash flow method	Interest/discount rate	6.4-18.9%	4.1-11.5%
Financial guarantee issued			-	4.5%

**35. CONTINGENT LIABILITIES AND COMMITMENTS****Operating environment**

Kazakhstan continues economic reforms and development of its legal, tax and regulatory frameworks as required by a market economy. The future stability of the Kazakhstan economy is largely dependent upon these reforms and developments and the effectiveness of economic, financial and monetary measures undertaken by the Government.

**Commodity price risk**

The Group generates most of its revenue from the sale of commodities, primarily crude oil and oil products. Historically, the prices of these products have been volatile and have fluctuated widely in response to changes in supply and demand, market uncertainty, the performance of the global or regional economies and cyclicity in industries. Prices may also be affected by the Government actions, including the imposition of tariffs and import duties, speculative trades, an increase in capacity or oversupply of the Group’s products in its main markets. These external factors and the volatility of the commodity markets make it difficult to estimate future prices. A substantial or extended decline in commodity prices would materially and adversely affect the Group’s business and the consolidated financial results and cash flows of operations. The Group mainly does not hedge its exposure to the risk of fluctuations in the price of its products.

**Taxation**

Kazakhstan’s tax legislation and regulations are subject to ongoing changes and varying interpretations. Instances of inconsistent opinions between local, regional and national tax authorities are not unusual, including opinions with respect to IFRS treatment of revenues, expenses and other items in the financial statements. The current regime of penalties and interest related to reported and discovered violations of Kazakhstan’s tax laws are severe. Due to uncertainties associated with Kazakhstan’s tax system, the ultimate amount of taxes, penalties and interest, if any, may be in excess of the amount expensed to date and accrued at December 31, 2022. As at December 31, 2022, Management believes that its interpretation of the relevant legislation is appropriate and that it is probable that the Group’s tax positions will be sustained, except as provided for or otherwise disclosed in these consolidated financial statements.

**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (continued)**

---

**35. CONTINGENT LIABILITIES AND COMMITMENTS (continued)****Transfer pricing control**

Transfer pricing control in Kazakhstan has a very wide scope and applies to many transactions that directly or indirectly relate to international business regardless of whether the transaction participants are related or not. The transfer pricing legislation requires that all taxes applicable to a transaction should be calculated based on market price determined in accordance with the arm's length principle. The law on transfer pricing came into force in Kazakhstan from January 1, 2009. The law is not explicit and there is little precedence with some of its provisions. Moreover, the law is not supported by detailed guidance for application of transfer pricing control to various types, as a result, there is a risk that the tax authorities may take a position that differs from the Group's position, which could result in additional taxes, fines and interest. As at December 31, 2022 management believes that its interpretation of the transfer pricing legislation is appropriate and that it is probable that the Group's positions with regard to transfer pricing will be sustained.

**Comprehensive tax audit at oil refineries of the Group**

All three major oil refineries in the Group, Atyrau Refinery, Pavlodar Refinery and Shymkent Refinery were subject to a comprehensive tax audit covering periods of a few years (up to 2020) in 2020-2022. As a result of the audits, the total amount of additional charges for VAT for 37,728 million tenge, for income tax for 17,830 million tenge, for other taxes for 476 million tenge, including penalties for all additional charges of 8,959 million tenge and reduction in tax carry-forward losses for 119,871 million tenge. Atyrau Refinery, Pavlodar Refinery and Shymkent Refinery did not agree with the assessment and appealed to the Ministry of Finance of RK. The consideration of the appeals remains suspended by the Ministry of Finance of RK until the circumstances are clarified. The Group believes that additional tax assessment is not probable, as such, the Group did not recognize any provisions as of December 31, 2022.

**Legal issues and claims****The civil litigation at KMGI**

Faber Invest & Trade Inc. (further Faber), the non-controlling shareholder of KMGI subsidiaries, resumed several previous civil filings in 2020, one of which challenged the increase in the Rompetrol Rafinare Constanta, the KMGI subsidiary, share capital in 2003-2005. The hearings have been held periodically, but no final decisions were made. On July 13, 2021, the court rejected the complaint of Faber. However, Faber appealed against this decision. Based on the results of the hearing in December 2021, the court granted the complaint and returned the case for reconsideration. Most of Faber's lawsuits were dismissed by the Supreme Court in May and September 2022, including an appeal filed by Faber challenging Faber's corporate documents approving the bond issue and paying off historical budget debts as filed after the deadline. In January 2023, hearings were held on the claims filed by Faber. Faber withdrew its claims in two cases, and the court postponed the decision in the third. The next hearing in the Faber case is scheduled for March 2023. Faber has filed the same lawsuit for the third time, but now in the Constanta court. The first hearing has not yet been scheduled.

The Group believes that its position regarding Faber's new application will be resolved in a similar manner to other similar proceedings resolved in favor of the Group. Accordingly, the Group did not recognize a provision in this case as of December 31, 2022.

**Civil legal dispute between the National Mineral Resources Agency (ANRM) and Oilfield Exploration Business Solutions S.A (OEBS), subsidiary of KMGI, at the Focsani field**

On December 17, 2019 OEBS has been noticed by the ANRM that a Request for Arbitration would have been filed in to ICC Paris for an alleged breach by OEBS of the Concession Agreement as regards the exploration block near Focsani. Starting from that period, OEBS was in dispute with ANRM. On July 29, 2022 the Court decided to oblige OEBS to pay 10.1 million U.S. dollars from a total ANRM claim of 20 million U.S. dollars. As of December 31, the Group recognized a provision in the amount of 10.1 million dollars (equivalent to 4,673 million tenge) (*Note 29*).

**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (continued)**

---

**35. CONTINGENT LIABILITIES AND COMMITMENTS (continued)****Competition investigation Moldova**

Since the beginning of 2021, Rompetrol Moldova (further RPM), a subsidiary of KMG operating in Moldova, is involved in an investigation and related court proceedings initiated by the Competition Council of Moldova (further CCM) alleging RPM agreed with other industry players on retail prices for petroleum products. RPM is challenging the competition report prepared by the CCM investigation division that forms the basis for the allegations in accordance with applicable regulations. A few attempts to dismiss the said report were unsuccessful with the latest ruling rejecting RPM's request to dismiss the report issued by the local court on May 26, 2022. RPM has filed an appeal and a first hearing is scheduled for March 21, 2023. As of December 31, the Group recognized a provision in the amount of 12 million dollars (equivalent to 5,552 million tenge) (*Note 29*).

**The case of arbitration between KazRosGas LLP, a joint venture of the company, (further KRG) and Karachaganak Petroleum Operating B.V. (further KPO)**

On August 23, 2022, the Notice of Initiation of Arbitration Proceedings of KPO was submitted to the KRG by the Secretariat of the International Chamber of Commerce in Paris. KPO intends to increase the gas sale price under the existing Karachaganak Gas Purchase and Sale Agreement. If the gas price is agreed later than October 1, 2022, KRG and KPO shall recalculate the gas price for the period from October 1, 2022 to the date of the price agreement. In October 2022, a working group was established to develop a negotiating position of the Kazakh side on the peaceful settlement of the dispute over the arbitration process between the KRG and KPO, chaired by the First Vice Minister of Energy of RK. The working group also includes representatives of the Ministry of Energy of RK, JSC "NC "QazaqGaz", KMG and KRG. In order to ensure a stable supply of gas to the domestic market of the RK, KRG and the Ministry of Energy of RK sent letters to KPO contractors with a proposal to suspend arbitration proceedings until 2024-2025. In December 2022, the KPO informed about the readiness to hold further discussions to achieve a potential settlement of the price revision process. In January 2023, the KRG sent to the KPO a proposal to conclude an agreement on the suspension of arbitration proceedings for a period of 3 months, during which the parties will appoint a "negotiation period" of 2 months to resolve the dispute. As of December 31, 2022 and on the date of issue of the financial statements the parties are negotiating to resolve the dispute on mutually beneficial terms. The Group believes that the risk of loss is not probable as of December 31, 2022.

**The case of an administrative offense of the Pavlodar Refinery initiated by the Department of Agency for protection and development of competition of RK (hereafter – Antimonopoly agency) of the Pavlodar region**

During February-July 2022 the Prosecutor's Office of the Pavlodar region together with the Antimonopoly agency conducted an inspection of the Pavlodar Refinery operations for compliance with the legislation of the RK in the field of oil and petroleum products turnover, labor, tax and antimonopoly legislation for 2020-2021. On March 16, 2022 Antimonopoly agency issued the Conclusion which stated that Pavlodar Refinery set monopolistically high tariff for oil refining services. On July 25, 2022, Antimonopoly agency of the Pavlodar region initiated an administrative offence and issued a Protocol to the Specialized Court for Administrative Offenses of Pavlodar city for setting by the Pavlodar Refinery monopolistically high tariff for oil refining services in 2021 and to confiscate revenue for 2021 of 21,961 million tenge and impose fine of 6,226 million tenge. During August-September 2022, Pavlodar Refinery appealed several times to terminate Protocol and Conclusion. However, all appeals of Pavlodar Refinery were rejected. Pavlodar Refinery is planning to further follow the appealing process in higher judiciaries. In September 2022, after rejection of initial appeals the Group recognized a provision in the amount of KZT 28,187 million tenge (*Note 29*).

**Inspection of the Prosecutor's Office of the Atyrau region with the involvement of Antimonopoly agency of the Atyrau Refinery**

During February-September 2022 the Prosecutor's Office of the Atyrau region with the involvement of the Antimonopoly agency conducted an inspection of the Atyrau Refinery operations. On September 22, 2022 the Prosecutor's Office of the Atyrau region provided a conclusion of setting monopolistically high tariff for oil refining services in 2020-2021. The Atyrau Refinery has sent an official letter with justifying the approved tariff for oil refining services in 2020-2021. The Group believes that the risk of revenue confiscation and fine imposing are not probable, as such, the Group did not recognize any provisions as of December 31, 2022.

**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (continued)****35. CONTINGENT LIABILITIES AND COMMITMENTS (continued)****Cost recovery audits**

Under the base principles of the production sharing agreements, the Government transferred to contractors the exclusive rights to conduct activities in the subsurface use area, but did not transfer rights to this subsurface use area either to ownership or lease. Thus, all extracted and processed oil (i.e. the hydrocarbons produced) are the property of the Government. Works are carried out on the basis of compensation and the Government pays to the contractors not in cash but in the form of the portion of oil production, thereby allowing the contractors to recover their costs and earn profit.

In accordance with the production sharing agreements, not all costs incurred by the contractors could be reimbursed. Certain expenditures need to be approved by the authorized bodies. The authorized bodies conduct the cost recovery audits. In accordance with the cost recovery audits completed prior to December 31, 2022, certain amounts of the costs incurred by contractors were assessed as non-recoverable. The parties to the production sharing agreements are in negotiations with respect to the recoverability of those costs.

As of December 31, 2022, the Group’s share in the total disputed amounts of costs is 2,595 million US dollars (equivalent to 1,200,386 million tenge) (2021: 2,269 million US dollars, equivalent to 979,556 million tenge). The Group and its partners under the production sharing agreements are in negotiation with the Government with respect to the recoverability of these costs.

**Kazakhstan local market obligation**

The Government requires oil companies in the RK to supply a portion of the products to meet the Kazakhstan domestic energy requirement on an annual basis, mainly to maintain oil products supply balance on the local market and to support agricultural producers during the spring and autumn sowing and harvest campaigns.

Kazakhstan local market oil prices are significantly lower than export prices and even lower than the normal domestic market prices determined in an arm-length transaction. If the Government does require additional crude oil to be delivered over and above the quantities currently supplied by the Group, such supplies will take precedence over market sales and will generate substantially less revenue than crude oil sold on the export market, which may materially and adversely affect the Group’s business, prospects, consolidated financial position and performance.

In 2022, in accordance with its obligations, the Group delivered 7,951 thousand tons of crude oil (2021: 7,114 thousand tons), including its share in the joint ventures and associates, to the Kazakhstan market.

**Commitments under subsoil use contracts**

As at December 31, 2022, the Group had the following commitment (net of VAT) related to minimal working program in accordance with terms of licenses, production sharing agreements and subsoil use contracts, signed with the Government, including its share in joint ventures and associate:

<i>In millions of tenge</i>	<b>Capital expenditures</b>	<b>Operational expenditures</b>
<b>Year</b>		
2023	314,158	80,598
2024	223,085	14,328
2025	306,900	14,803
2026	339,652	14,927
2027-2049	230,333	31,573
<b>Total</b>	<b>1,414,128</b>	<b>156,229</b>

**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (continued)****35. CONTINGENT LIABILITIES AND COMMITMENTS (continued)****Commitments under subsoil use contracts (continued)**

As at December 31, 2021 commitments (net of VAT) under subsoil use contracts included:

<i>In millions of tenge</i>	<b>Capital expenditures</b>	<b>Operational expenditures</b>
<b>Year</b>		
2022	284,247	57,135
2023	122,340	4,373
2024	119,282	4,383
2025	180,402	4,314
2026-2048	146,972	21,372
<b>Total</b>	<b>853,243</b>	<b>91,577</b>

**Oil supply commitments**

As of December 31, 2022, Kashagan had commitments under the oil supply agreements in the total amount of 6.6 million tons (approximates 262,325 million tenge) (December 31, 2021: 8.6 million tons (approximates 281,550 million tenge)).

**Other contractual commitments**

As at December 31, 2022, the Group, including its share in joint ventures commitments, had other capital commitments of approximately 240,794 million tenge (net of VAT) (as at December 31, 2021: 149,833 million tenge (net of VAT)), related to acquisition and construction of long-lived assets.

As at December 31, 2022, the Group had commitments in the total amount of 152,824 million tenge (as at December 31, 2021: 184,455 million tenge) under the investment programs approved by the joint order of Ministry of Energy of RK and *Committee on Regulation of Natural Monopolies and Protection of Competition of the Ministry of National Economy of RK* to facilitate production units.

**Non-financial guarantees**

As of December 31, 2022 and 2021, the Group has outstanding performance guarantees issued in favour of third parties whereas it provides guarantee should its joint venture or associate fail to perform their obligations under the natural gas purchase-sale, transportation and other agreements.

As of December 31, 2022 and 2021, the management of the Group believes that there were no expected cases of non-performance from the guaranteed parties and, accordingly, no obligations related to the above stated non-financial contingencies were recognized.

**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (continued)****36. SEGMENT REPORTING**

The Group’s operating segments have their own structure and management according to the type of the produced goods and services provided. Moreover, all segments are strategic directions of the business which offer different types of the goods and services in different markets. The functions have been defined as the operating segments of the Group because they are segments a) that engages in business activities from which revenues are generated and expenses incurred; b) whose operating results are regularly reviewed by the Group’s chief operating decision makers to make decisions.

The Group’s activity consists of three main operating segments: exploration and production of oil and gas, oil transportation, and refining and trading of crude oil and refined products. The Group presents the Company’s activities separately in Corporate segment, since the Company performs not only the functions of the parent company, but also carries out operational activities. The remaining operating segments have been aggregated and presented as other operating segment due to their insignificance.

Disaggregation of revenue by types of goods and services is presented in *Note 8* to the consolidated financial statements.

As at December 31, 2022 and 2021 disaggregated revenue mainly represents sales and services made to the external parties by the following operating segments:

<i>In millions of tenge</i>	December 31, 2022					
	Exploration and production of oil and gas	Oil transportation	Refining and trading of crude oil and refined products	Corporate	Other	Total
Sales of crude oil and gas	668,270	–	3,925,701	–	–	4,593,971
Sales of refined products	4,334	–	2,577,156	775,804	12,566	3,369,860
Refining of oil and oil products	–	–	204,390	–	–	204,390
Oil transportation services	–	184,042	1,493	1,810	188	187,533
Other revenue	25,318	46,324	115,787	1,451	141,750	330,630
<b>Total</b>	<b>697,922</b>	<b>230,366</b>	<b>6,824,527</b>	<b>779,065</b>	<b>154,504</b>	<b>8,686,384</b>

<i>In millions of tenge</i>	December 31, 2021					
	Exploration and production of oil and gas	Oil transportation	Refining and trading of crude oil and refined products	Corporate	Other	Total
Sales of crude oil and gas	611,876	–	3,099,664	–	–	3,711,540
Sales of refined products	(3,184)	–	1,527,802	559,515	11,704	2,095,837
Refining of oil and oil products	–	–	203,425	–	–	203,425
Oil transportation services	(630)	169,095	2,035	13	221	170,734
Other revenue	20,622	34,293	111,400	1,367	110,117	277,799
<b>Total</b>	<b>628,684</b>	<b>203,388</b>	<b>4,944,326</b>	<b>560,895</b>	<b>122,042</b>	<b>6,459,335</b>

Segment performance is evaluated based on revenues, net profit and adjusted EBITDA, which are measure on the same basis as in the consolidated financial statements.

EBITDA is a supplemental non-IFRS financial measure used by management to evaluate segments performance, and is defined as earnings before depreciation, depletion and amortization, impairment of property, plant and equipment, exploration and evaluation assets, intangible assets and assets classified as held for sale, exploration expenses, impairments of joint ventures and associates, finance income and expense, income tax expenses.

EBITDA, % is calculated as EBITDA of each reporting segment divided by the total EBITDA.

Eliminations and adjustments represent the exclusion of intra-group turnovers. Inter-segment transactions were made on terms agreed to between the segments that may not necessarily comply with market rates, except for certain regulated services, which are provided based on the tariffs available to related and third parties.

**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (continued)**

**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (continued)**

---

**37. IMPACTS OF THE WAR IN UKRAINE**

Since February 2022, due to the conflict between the Russian Federation and Ukraine, numerous sanctions have been announced by a majority of western countries against the Russian Federation. These sanctions are targeted to have a negative economic impact on the Russian Federation.

Due to the growing geopolitical tensions, since February 2022, there has been a significant increase in volatility in the securities and currency markets, as well as a significant depreciation of the tenge against the US dollar and the euro. There has also been a significant increase in the key rate of the NB RK from 9.75% to 16.75% during the year.

The Group has assessed the consequences of the sanctions and interest rate rises on the consolidated financial statements of the Group and continues to monitor these areas of increased risk for material changes.

***Borrowing***

The Group has a borrowing from VTB Bank PJSC (a Russian bank) of 37.5 billion ruble (equivalent to 225 billion tenge) with maturity in 2027 and interest rate of ‘Key Rate of Central Bank of Russian Federation (key rate) + 2.25%’ per annum as at December 31, 2022. There were significant fluctuations in key rate from 8.00% to 20.00% and then to 7.50% during the year. Scheduled quarterly payments of this loan’s interest and principle amount were made in Russian rubles without any issue in 2022.

***Assessment of significant influence***

In accordance with IAS 28 Investments in associates and joint ventures, the Group has assessed and confirmed that the changes in the legal and operating environment of Russia and Ukraine have not impacted the ability to exercise significant influence over the CPC, KMG’s associate, in Russia.

***Operating environment of CPC, KMG’s associate***

On March 23, 2022, CPC, stopped loading oil at the Black Sea terminal due to damage of two out of three single-point moorings (SPM) caused by a storm. On April 24, 2022, oil loading at the second of three SPM systems on the CPC network at Novorossiysk was resumed.

On April 27, 2022, a Russian Court (the Arbitration Court of the Krasnodar Territory) fully satisfied the claim of Rospirodnadzor (a Russian regulator) to recover from the CPC damage from an oil spill at the CPC Marine Terminal (occurred in August 2021), of 5.2 billion Russian ruble (equivalent to 30 billion tenge). The CPC recognized a provision for the full amount. In the consolidated financial statements of the Group, the provision was reflected in share in profit of associate for the 2022.

On July 6, 2022, a Russian Court (Primorsky District Court) ordered CPC to suspend operations for 30 days. Later the month-long suspension was replaced by a 200,000 Russian rubles fine (equivalent to 3,300 US dollars). CPC reflected this fine in its accounting books in July 2022. The operations of CPC were not stopped during the above period.

On August 22, 2022 while performing scheduled maintenance on SPM-1 and SPM-2, divers discovered cracks in subsea hose attachments to buoyancy tanks. On November 12 and 29, 2022, both SPM-1 and SPM-2 on the CPC network at Novorossiysk have resumed their operations.

All matters occurred during 2022 are resolved during the year, no further developments.

***Impact of sanctions***

On March 4, 2022, the European Union disconnected 7 Russian banks from SWIFT. The Group have oil transportation contracts with Russian entities. To avoid risks on settlements the Group changed the bank counterparties to the banks which are not under sanctions. Additionally, the currency of certain contracts has been changed from US Dollars to Russian rubles. Currency settlements were made without any issue during 2022.

Starting February 5, 2023, the European Union imposed a ban on imports of Russian diesel, jet fuel and other oil products transported via sea. This measure is not applicable to Group’s operations in Kazakhstan or internationally.

**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (continued)**

***Hydrocarbon production contract***

On February 27, 2023, the Company entered into a contract with the Ministry of Energy of RK for the production of hydrocarbons at the Kalamkas-Sea, Khazar and Auezov subsoil blocks located in the Kazakhstani sector of the Caspian Sea.

***Changes in legislation***

In 2023, amendments to the Law of the Republic of Kazakhstan dated July 20, 2011 No. 463-IV “*On state regulation of the production and circulation of certain types of petroleum products*” came into force. According to these amendments, refineries have the right to sell petroleum products. The sale of oil products by the oil refineries will be carried out independently after a full or partial transition to a marketing scheme of work, which implies an independent purchase of oil and the sale of oil products produced from this oil. The Group does not expect significant impact of changes in legislation on its operations.
