

## **Report on payments to governments made by NC KazMunayGas JSC in 2024**

### **Introduction**

In an effort to comply with best international practices, JSC National Company KazMunayGas (KMG, the Company) publishes a report that provides a summary of payments made to government bodies by KMG in 2024, including its subsidiaries.

The report has been developed in accordance with the 2014 United Kingdom (UK) Rules for reporting on payments to governments (as amended in December 2015). These Rules are based on the provisions of Chapter 10 of the Act “On reports on payments to governments” of the Reporting Guidelines 2013, as amended. According to these Rules, oil, gas, mining and forestry companies registered in the UK must disclose annual information on payments to governments by countries and by projects.

### **About Company**

JSC National Company KazMunayGas is Kazakhstan’s leading vertically integrated oil and gas company, operating assets across the entire production cycle from exploration and production of hydrocarbons to transportation, refining and provision of services. Established in 2002, the Company represents the interests of the Republic of Kazakhstan in the national oil and gas industry.

As at the end of 2024, the share capital of KMG is owned by Sovereign Wealth Fund Samruk-Kazyna Joint-Stock Company (“Samruk-Kazyna”, the “Fund”) (67.42%), Ministry of Finance of the Republic of Kazakhstan — 20%, the National Bank of Kazakhstan (“NBK”) (9.58%), and 3% is in free float.

In 2024, the Company retained its leading position in terms of oil production, transportation and refining in Kazakhstan.

KMG, realising that its activities are directly related to the use of natural resources, recognizes its responsibility to society for the rational use of these resources and the preservation of a favorable environment.

### **Reporting companies**

This report includes information on payments to government made by the Company and by its Subsidiaries.

### **Reporting period and report coverage**

The reporting period is 2024.

The use of the reporting system makes it possible to reflect information on contributions to governments, is aimed at increasing the transparency of the Company in the field of payments to governments, strengthening the responsibility of mining companies in matters of income from the sector, increasing public awareness of the Company's activities in the regions, and also makes it possible to compare the Company's reports with reports leading international companies in the oil and gas industry.

The Company publishes this report on allocations to governments in accordance with best disclosure practices.

The report examines the activities of the Company and its subsidiaries involved in the extraction, transportation, processing of hydrocarbons, as well as oilfield services.

**Government/State**

For the purposes of the Report, the term "Government" means any authority authorized to collect taxes, budgetary and other payments in accordance with the applicable law in force at the time the contribution or payment falls due. In the context of this Report, governments also include organisations, businesses and other legal entities that are authorised to collect taxes, fees and other payments to the governments.

**Companies**

Companies are understood to mean those entities whose data on cash contributions are included in this report.

**Payments categories**

The types of payments are categorised as follows:

*Taxes*

All taxes except mineral extraction tax.

*Mineral extraction tax*

The mineral extraction tax is a compulsory payment made by subsoil users separately for each type of mineral raw materials, oil, groundwater and therapeutic mud extracted.

The object of taxation on the extraction of minerals is the physical volume of crude oil, gas condensate and natural gas produced by the subsoil user during the tax period.

*Signature bonus*

The signature bonus is a one-time fixed fee paid by a subsoil user for obtaining the right to subsoil use in a contract area (subsoil plot), as well as for expanding a contract area (subsoil plot) in the manner prescribed by the legislation of the Republic of Kazakhstan.

*Other payments*

Other payments include all other payments to governments, including export customs duty.

**Currency**

This report is presented in Kazakhstani Tenge, which is the functional and presentation currency of the Company's financial statements. Transactions in foreign currencies are recorded in the functional currency at the prevailing exchange rate on the transaction date. Monetary assets and liabilities denominated in foreign currencies are converted to the functional currency at exchange rates effective at the reporting date.

**Contact details**

This report, along with additional information on the Company's activities, can be found on the corporate website at [www.kmq.kz](http://www.kmq.kz).

Questions or comments related to the information provided in this report should be sent to: Investor relations, 8 Konayev Street, Astana, the Republic of Kazakhstan, Z05H9E8.
